

SHERIFF TO SIFT COOKSON CASE

300 Are Drowned by Floods in Korea

SEOUL UNDER WATER WHEN DIKES BREAK

Capital, with Population of 300,000, Is Threatened By Pestilence, Starvation

DEAD MAY RUN 2500

Authorities Send Wireless For Assistance As City And Island Are Cut Off

(By United Press)

TOKIO, July 18.—Seoul, the capital of Korea, with a population of half a million, is inundated and 5000 inhabitants are isolated on some high ground as a result of extensive floods, according to dispatches from that city. The reports add that 300 have been drowned in Korea and many more are in peril from the rising waters. Tokio island and Yong San city are completely submerged. Troops have been called out.

A later radio message from Seoul said the city was completely isolated when the Han river dikes broke, inundating the suburb of Lunghan, with a population of 5000. Many were drowned. Seoul's population of 300,000 is threatened with starvation and pestilence. Water, light and food are lacking, the report continued.

Boats dispatched from Fusan were swamped. The flood waters continue rising, and it is feared that the dead at Tokio island alone will reach 2500.

Authorities are sending out wireless calls for aid.

Peeping Tom Kills Himself When Arrested

LOS ANGELES, July 18.—Arrested for peeping through an apartment window at two girls who were disrobing, W. C. Arnold, 35, committed suicide today by swallowing poison.

Officers had just taken Arnold into custody when he reached a rooming house at 11th and Broadway, where he lived with his wife and two children. He was found dead in his room, with a bottle of poison nearby.

He died enroute to a hospital.

The girls, whose names were withheld by police, said they had never known Arnold. The latter died without making a statement.

9 Chinese Taken In Narcotic Raid

SACRAMENTO, July 18.—Nine Chinese were under arrest here today in connection with the seizure of a huge supply of narcotics during a raid by local and federal authorities. One of the most complete opium dens uncovered here in years was unearthed by the officers during the raid, and hundreds of dollars worth of pipes, lamps and raw opium confiscated.

21 HURT IN EXPLOSION

PITTSBURGH, Pa., July 18.—Twenty-one persons, including nine firemen, were either burned or overcome as the result of an explosion of an ammonia tank in the basement of the William Penn hotel here today.

LO AND BEHOLD! ANOTHER THEATER FOR SANTA ANA; THREE PROJECTS BREWING

Again a \$200,000 theater building is projected for the site of the Grand opera house, on the northeast corner of Fourth and Bush streets, according to information from Eugene Durfee, architect. Plans for the theater building, which is to be erected on the southwest corner of the city today, was out of the city today, and his confirmation of the announcement could not be procured.

DAYTON'S DAY IN LIMELIGHT NEARS CLOSE

Evolution Trial Expected to Be Brought to End by Tuesday Night at Latest

SEE GUILTY VERDICT

Defendant Scopes Already Is Busy Trying to Raise \$500 Money to Pay Fine

DAYTON, Tenn., July 18.—Dayton's day in the sun is waning. The Scopes trial, to all intents and purposes, is practically over. A few hours of flaming oratory as William J. Bryan sums up in triumph and Clarence Darrow fights back in defeat, and then the young defendant will be found guilty and the case that put this little Tennessee town into the spotlight will be on its way to the higher courts.

Attorneys for both sides agreed today that Judge Raulston's ban on introduction of scientific evidence means that by next Tuesday night the case will be closed and trains to the north, east, south and west will be laden with departing experts, counsel, correspondents and visitors.

Slight Chance for Reversal

There was a scant possibility that Judge Raulston, after perusing some 12,000 words of scientific evidence in behalf of evolution, presented by the defense in the form of affidavits, would reverse himself and permit the jury to hear the experts brought here by Clarence Darrow and his associates. But the chance was slight.

What seemed equally possible was that Judge Raulston would take action against Darrow, who clearly laid himself open to contempt proceedings yesterday, when he commented upon the court's rulings. After Raulston reads the affidavits, if he still believes the jury should not hear their contents, closing arguments will be made and the jury will be given the fate of John Thomas Scopes, who taught the school children of Dayton the theory of evolution. Scopes already is foraging for the \$500 fine he will be undoubtedly assessed when found guilty.

Take Rest in Mountains

Scientists of the defense staff labored today to reduce their opinions on evolution and the Bible to writing for submission to the judge today. Meanwhile, all other principals fled to the mountains for a rest.

The scientists prepared their affidavits in accordance with the agreement reached between the defense and Judge Raulston yesterday after the court had ruled out their personal testimony. There will be brief argument when court convenes Monday over whether they will be read out in open court or simply handed to the court stenographer, but the latter is the most likely course. Copies however, will be furnished to the press in advance for release when they are formally presented.

The opinions contained in the scientists' statements are in the form of the judge's information and guidance in charging the jury and also to show the appellate court what the defense sought to prove and was prevented from proving. The jury will not hear them.

Attorneys for both sides practically agreed to limit speeches to half or three-quarters of an hour to each attorney appearing and a maximum of eight hours of argument.

Conclude Women Can Drive Just As Well as Men

WASHINGTON, July 18.—Scientists and psychologists have determined after a series of tests, that women automobile drivers are just as competent, if not more competent than men, the American Automobile association announced here today.

In two tests, women were found more competent. They are first, the speed with which the driver reacts to danger and takes steps to avert it, such as applying brakes; and, second, the consistency with which the driver responds in such a situation.

In the first test, the experts found it took 10 college women 56 seconds to react to danger and men 59 seconds.

MRS. VIRGINIA LEE COOKSON SHOWN WITH ORANGE COUNTY OFFICERS AT CALEXICO

Above—Mrs. Virginia Lee Cookson and Sheriff Sam Jernigan, as they are leaving the house where Mrs. Cookson spent the night following her appearance at the police headquarters in Calexico. Below—Left to right, Motorcycle Officer Vernon Barnhill, Chief Criminal Deputy Ed McClellan, Mrs. Virginia Lee Cookson and Sheriff Sam Jernigan. This picture was taken just as the start was being made from Calexico for Santa Ana.

PARIS ADMITS MOVE TO END RIFFIAN WAR

(By United Press)

PARIS, July 18.—The Quai d'Orsay today confirmed that France and Spain are about to send semi-official delegates to Abdel Krim, Rifian chieftain, to impart to him the two nations' peace terms.

These terms will be virtually in the form of an ultimatum, as Krim will be told he must give a "yes" or "no" reply.

The commission, semi-official in the sense that its members will be subordinated, will probably consist of two French representatives and two Spanish.

The delegation will probably meet Krim at Ajdir, on the Bay of Alhucemaz, Morocco. France is expected to decline any suggestion from Krim for an armistice, on the theory that such would simply give him an opportunity to incite tribes against the French.

It is scarcely anticipated that Krim will accept the peace proffers, for it is admitted that the proposal of a conditional autonomy for him would probably be difficult of acceptance when he now has virtual independence.

Roosevelt Return Puzzles Calcutta

CALCUTTA, July 18.—It was reported here today that the members of the James Simpson-Roosevelt Museum expedition to the heart of Asia, in quest of the sheep's ancestor, the Ovis Poli, had indicated they are turning soon. Authorities, perplexed and without definite news, say an early return would mean either that the expedition had succeeded or was obliged to replenish equipment.

Keep Cool In Red Flannel, Says Iclander

LOS ANGELES, July 18.—Here's the secret of keeping cool in hot weather, according to Dr. Gudbrand Herjulfsson, of Reykjavik, Iceland.

Wear red flannel underwear! Dr. Herjulfsson came here direct from the Icelandic capital. The thermometer registered 97 when he alighted from his train.

But he was the coolest man in the city. "Keep the blood warm and the skin cool," counseled the Iclander. "Look at this!" He rolled back eight inches of shirt sleeve and exposed his red flannel underwear.

"That's the secret—wear 'em the year around. If it gets cold, you'll keep warm. If it gets hot, you'll keep cool. 'Simple, isn't it?'"

AMERICAN AGENT IN MEXICO SHOT

WASHINGTON, July 18.—The American vice consul at Agua Calientes, Mexico, Harold G. Bretherton, has been shot but not seriously injured, it was learned at the state department here today.

The report received of the shooting, which occurred on July 16, stated that the cause is unknown and it is believed the shot was not intended for Bretherton. The Mexican foreign office has been requested by this government to start an immediate investigation and punish the guilty person.

Though the report does not specify, it is presumed the culprit was a Mexican and that he escaped.

ALL U. S. DRY AGENTS WILL BE REMOVED

(By United Press)

NEW YORK, July 18.—Every prohibition agent in the country is due to lose his job within the next two months, Roy A. Haynes, federal prohibition commissioner, announced here. The greatest "shakeup" in the history of prohibition enforcement will start August 1 and terminate September 15.

Within that period, the new federal regime, under Assistant Secretary of the Treasury Lincoln C. Andrews, will reorganize its groups of agents throughout the United States.

Many agents undoubtedly will be reapportioned for merit, or because of their peculiar knowledge of conditions in their present localities. The blanket removal from office of all is intended to give General Andrews a free hand to drop and retain whom he pleases without any embarrassment that might be occasioned if formal discharge were necessary.

Simultaneously with announcement of the impending "shakeup," U. S. Attorney Emory Buckner announced the rounding up of a bootleg ring, said to have filled orders for 20,000 truckloads of liquor.

Man Killed When Car Leaps Cliff

COLORADO SPRINGS, Colo., July 18.—J. S. Helm, Butler, Pa., is dead and six others are in a serious condition here today, following an accident late yesterday when a sightseeing car plunged over a 50-foot cliff near Ute Pass. The heavy car, carrying nine passengers, was crowded off the precipice by a passing automobile. Two escaped injury.

ADMITS WILD KIDNAP TALE Baffles Him

Jernigan Determined to Go To Bottom of Story Related by Rescued Woman

GOES TO SANITARIUM

Husband Meets Heroine of Arden Forest on Highway, Takes Her in Car

NOT SATISFIED with the weird tale Virginia Lee Cookson tells of her kidnapping and ultimate rescue from an underground den in Mexicali, Sheriff Sam Jernigan today declared he would sift the strange case to the bottom.

"I'll frankly admit I'm stumped," was Jernigan's comment this morning. "If Mrs. Cookson was kidnapped it's up to the sheriff's office to run down the abductor. If her tale is made out of whole cloth, it's up to us to find a motive for it. I'm not through with this case by a long ways, and when Mrs. Cookson recovers sufficiently I'll have another talk with her."

Nelson Arranges Conference District Attorney A. P. Nelson also wants to get at the bottom of the case and has arranged for a conference with Mrs. Cookson.

There are many angles to the case that question Mrs. Cookson's weird yarn. Some of the questions that local officials would like answered are:

How did Mrs. Cookson go about in her silk stockings without shoes from midnight, Monday until Friday morning without wearing them out or even getting them dirty?

Why is it Mrs. Cookson is not worrying about another visit by the abductors and why was she so carefree on her trip back from Calexico yesterday?

Why did she never get the number of the big car she said crowded her off the road several times at the entrance to Orange county park?

Why did she pose so willingly for pictures when approached in Calexico?

Why was the greeting with her husband, after her return, so perfunctory?

When Mrs. Cookson appeared at the Calexico police station Thursday night she was walking in her stockings feet. Her brown in her stockings were hardly dirty, according to Police Chief Bill Harwick, of Calexico. There was not a hole in either stocking. It will be remembered Mrs. Cookson's shoes were found in her abandoned car Monday night.

Talks All Way Back On the return trip from Calexico Mrs. Cookson did not show the disordered mental state that one having gone through the ordeal she described would naturally be in. She chatted freely all the way home and apparently was the most carefree of the five persons in the car. She ate a healthy dinner of lobster and steak in George Beech's place, near Carlsbad.

Mrs. Cookson declares she had been crowded off the road near the entrance of Orange county park on several occasions prior to her alleged kidnapping. The officers are wondering why she never got the number of the car.

When approached by photographers in Calexico early yesterday morning, Mrs. Cookson gladly consented to pose for a picture. The natural supposition would be that a woman who had just gone through the experiences Mrs. Cookson had would avoid all the publicity she could.

Husband Is Indifferent The greeting between Cookson and his wife, when the former met the sheriff's car between Capistrano and Irvine yesterday, was surprising. Cookson was not the first man first to greet his wife. He calmly and coolly helped her out of the sheriff's car and more or less indifferently kissed her. After placing his wife in his car, Cookson and his party turned south, declaring they were going to a sanitarium in San Diego.

Mrs. Cookson's condition was not such that she needed rest in a sanitarium. She was in the best of health on the trip home and appeared none the worse for the ordeal she went through.

Strikes News Photographer Cookson has attempted to avoid publicity ever since his wife's disappearance. Yesterday afternoon, he engaged in a fistie encounter with a cameraman from Los Angeles, when the latter snapped a picture of him. Cookson struck the newspaperman, who in return knocked Cookson into the street.

Mrs. Cookson does not seem to fear for the future. Coming home in the car yesterday, she declared that in the future she would

(Continued on Page 2)

SIX-YEAR-OLD GIRL DIES AS CRASH RESULT

Margaret Paulus, 6-year-old daughter of Mr. and Mrs. William Paulus, 204 Anaheim boulevard, Olive, died at 1 o'clock this morning from injuries received when she was struck by an automobile driven by Stuart A. Cundiff, assistant city engineer of Newport Beach, at Newport Beach, Friday.

The accident occurred as the child, with a chum, was crossing Central avenue, near Twenty-third street, on her way to get her first glimpse of Newport bay.

Carried 12 Feet
As they started across the thoroughfare, the Paulus girl hesitated in front of the oncoming automobile. She caught the bumper as the car struck her and was carried about 12 feet, observers said.

Examination showed that her head had been fractured and her left leg broken. First aid treatment was applied and she was rushed to the Santa Ana Valley hospital.

The accident broke up a pleasure outing the family had planned for the day in the home of relatives, Mr. and Mrs. Walter Timken, 103 Twenty-fifth street, Newport Beach. Six-year-old Lawrence Timken was with Margaret when the accident occurred.

"Let's go see the bay," Margaret had suggested.

Warning Too Late
They agreed and started for the bay. At Central avenue, while about to cross, the Timken lad saw the automobile coming and called to Margaret to come back. His warning was too late.

Cundiff carried the girl in his car to the physician's office in Newport Beach. While still unconscious she was hastened to the Santa Ana hospital.

INTENSE HEAT TAKES 14 LIVES

(Continued from Page 1.)
Cloudy weather was reported at some points, and sea breezes relieved the discomfort a bit along the coast.

Generally fair and continued warmth was the weather man's forecast, however, for tonight and Sunday.

Four lives were claimed by the intense heat of yesterday in various sections of California. At Yuma, Ariz., just east of the California border, the mercury soared to 120, and two persons died.

Los Angeles reached the high mark of the year, with 97 degrees. High humidity added to the discomfort.

SLIGHT RELIEF FOR NORTHERN SECTION

SAN FRANCISCO, July 18.—Slight relief tonight and tomorrow from the excessive heat which gripped northern and central California, taking a toll of six lives and causing numerous prostrations, was forecast by the weather bureau here today. Temperatures probably will react to normal within 48 hours, bureau officials said.

Mrs. Anita Leone, 24, was fatally injured when depressing heat and pain from a recent operation caused her to leap from a window of her room at a Sacramento hospital.

Sacramento reported a temperature yesterday of 114 degrees, the highest of record.

Other temperatures were:
Red Bluff, 114; Sacramento, 114; Fresno, 114; Needles, 120; Riverside, 113; San Jose, 96; Los Angeles, 97; Chico, 113; Colusa, 110; Merced, 114; Mount Hamilton, 98; Mount Wilson, 94; Paso Robles, 115; Pomona, 110; Redlands, 114; San Bernardino, 114; Santa Rosa, 98; Stockton, 108.

\$250,000 Loss In Still Explosion

COVINGTON, Ky., July 18.—Explosion of a still in the Colker chewing gum factory caused a \$250,000 fire today. Flames spread to a residence and the Knights of Columbus hall. Abraham Colker, president of the gum company, was arraigned for possessing a liquor still, but denied all knowledge of it.

WILL ASK APPEAL OF MURDER CASE

HANFORD, Calif., July 18.—Mrs. Jennie Laura Brown, first woman ever convicted of murder in Kings county, "Uncle Johnny" Tipton and Fred Mills, held jointly responsible with Mrs. Brown in the murder of Lee Camp, will be free on bail within the week, if plans of defense attorneys can be consummated.

It is said that the attorneys are determined to take an appeal in the case when the convicted trio comes up for sentence at 2 o'clock Monday afternoon. Should the higher court reverse the decisions of the local court the convicted trio will be admissible to bail pending subsequent hearing.

Mrs. Brown, Tipton and Mills were held by the jury of murder in the second degree in one of the most bitterly contested criminal cases ever held in the local courts, while Robert McCamish, fourth person charged with the crime, was pronounced not guilty.

When the jury announced that a verdict had been reached at 9 o'clock last night the crowds surged into the courtroom, packed the stairways leading to the lawn below, and formed a human chain across the entire ground. The verdict of the jury met with instant popular approval as was evidenced by the demonstrations which followed.

Lo and Behold! Another Theater For Santa Ana

(Continued From Page 1.)
his firm had not been given notice to arrange for other quarters.

The correspondence and announcement received from Durfee follow:

"Los Angeles, July 17, 1925.
"Santa Ana Register, Santa Ana, California.
"Gentlemen!—

"Enclosed herewith is a news item which will be published in the Los Angeles papers on Sunday, July 19. Mr. Lutz has authorized me to close a deal on this property and the matter has just been consummated, after several weeks' work.

"Yours very truly,
"M. EUGENE DURFEE."
The news item referred to follows:

"Arrangements have been made for a new theater on the property owned by William Lutz, corner of East Fourth and Bush streets, Santa Ana. According to plans prepared by M. Eugene Durfee, architect, this theater is to be the largest and best in Orange county. The building is to cost \$200,000 and construction will start shortly. The lot is 100 by 165 feet and will be covered by the new building. The theater will have a seating capacity of 2000. In addition to the theater, there will be a number of shop, store room and studio.

"A lease on the new theater has been negotiated with a large theater corporation, which intends to operate it for both motion pictures and legitimate shows."

U. S. and Europe Will Exchange Radio Programs

LONDON, July 18.—Exchange of American and European radio programs has been arranged. As a result of an agreement between the British Broadcast company and the Radio Corporation of America, European programs will be picked up daily and relayed by American stations, while European stations pick up and relay American programs.

Through inauguration of the international exchange it will be possible for Americans to dance in their homes to the strains of the orchestras of the Hotel Savoy, London, Hotel Crillon, Paris, and Hotel Adler, Berlin, while Europeans can step to the tunes of American hotels and stations.

Senora Calles, wife of the president of Mexico, is reported to have spent \$45,000 on a recent shopping tour in Los Angeles.

SHERIFF TO SIFT STORY BY MRS. COOKSON

(Continued From Page 1.)
carry a pistol in her car at all times. She then outlined a plan she had in mind for erecting several cottages on the brook that runs through her property near Modjeska's home. She says she owns 160 acres in the canyon and her total indebtedness on the property at this time is but \$1000.

Sheriff Jernigan today mailed a picture of Mrs. Cookson to Police Chief Hardwick, in Calexico, asking him to make a round of all the rooming houses in Calexico and Mexicali and ascertain if Mrs. Cookson stopped over night in either of these cities between the time her car was discovered and the time she appeared in police headquarters in Calexico.

Immigration officials at the border line also will be pressed into service, according to Jernigan, who swears he will get at the bottom of the affair.

Believes Woman's Story
W. E. Clement, of Orange, from whose home at Orange Mrs. Cookson departed near midnight Monday, declared that he has explicit faith in Mrs. Cookson, and believes true the story she tells of her experiences.

"My wife and I have been close friends of the Cooksons for a number of years, and it is my opinion that Mrs. Cookson is not the type of woman who would stage an affair of this type," Clement said.

"Many things have been said of her in print that are absolutely untrue and without foundation. She is a charming woman.

"My wife insisted on her staying at our home Monday night. Arrangements had been made for her to return to the following afternoon to remain over night, and then go to Los Angeles to meet her husband. The fact that she was to be our guest the next night, and the further fact that it was necessary for her to be at her home early Tuesday morning in order to direct a young man who was to enter her employ that morning, were reasons why she did not accept our invitation to stay over night."

Cyril Collins, son of J. L. Collins, landscape architect of 821 Garfield street, has been appointed to a position with the Bell Telephone company in San Francisco, following a competitive examination among the graduates of the University of Washington.

Young Collins was one of the two selected for the position.

Mr. and Mrs. T. Stewart Blair of Wyandotte, Mich., are guests of the former's parents, Dr. and Mrs. Thomas S. Blair of 418 South Broadway. Mr. Blair was formerly connected with the California Fruit exchange, but is now in charge of the research department of the J. B. Ford company of Wyandotte.

Friends of Mr. and Mrs. Chauncey I. Pond and their little sons will be pleased to know that they are returning here in August to make their home, having been living in Los Angeles for some months.

Mrs. H. H. Riddle of 819 East First street and her house guest, Mrs. John Spingle of Bakersfield, spent the past week at Elsinore Hot Springs.

Mrs. John Baxter of 110 West First street, mother of Chester Baxter of the Orange County Trust and Savings bank, left Thursday over the Santa Fe for her old home in Winfield, La., where she will spend the summer. Mrs. Baxter purchased a return ticket, which will be good news to the many friends she has made in Santa Ana.

Mr. and Mrs. H. F. Hackler and little son of the Community Cleaners spent two days the first of the week at Santa Barbara and today went to Catalina island for the week-end.

Mr. and Mrs. C. D. Henderson, Mr. and Mrs. George E. Peters, Mr. and Mrs. E. L. House, Mr. and Mrs. Roger Dunning, Mr. and Mrs. John Crawford, Mr. and Mrs. M. J. McCurdy, Mr. and Mrs. Roy Bishop, Miss Helen Aarons and William Marymee, all of Sycamore Rebekah lodge and Mr. and Mrs. Herbert Allen of Toros lodge enjoyed the installation ceremonies of the Anaheim Rebekah lodge last evening.

J. A. Tarpley, grocer at 644 North Van Ness avenue, will go to Riverside tomorrow morning to meet the Union Pacific train upon which Mrs. Tarpley will return from a nine weeks' visit in the east. Among the cities in which Mrs. Tarpley visited relatives and friends were Pittsburgh, Pa., Chicago, Ill., New York City and Washington, D. C.

Mrs. Elsie Bohling and Miss Henrietta Bohling, 409 Hickey street were recent guests at the Henry Meir' cottage at Laguna Beach.

Miss Frances Hillman and Miss Ada Markel of the county clerk's office, are spending a week's vacation at Coronado.

Miss Lula Ott, chief deputy in the county tax collector's office, Miss Jesse Barrett of the same office and the latter's cousin from the east are spending a two weeks' vacation at Big Bear Lake.

Leslie Echols, chief deputy in County Auditor Jerome's office, and Mrs. Echols are in Portland, Ore., where the former is attending the Elks' convention.

Mr. and Mrs. Will Gerrard, who are spending the summer at their cabin at Camp Baldy, are having for their week-end guests the members of the Sunday school class of young married people of the Christian church of which Mr. Gerrard is the teacher.

Miss Esther Chosen of Pasadena is a guest at the home of her brother-in-law and sister, Mr. and Mrs. Harry Granz of 509 North Olive street, while recovering from painful injuries sustained in an automobile last Sunday at Norwalk, when the Granz car went in-

You And Your Friends

Please Phone or Mail Items

Mr. and Mrs. P. J. Hallicy have returned from a very pleasant vacation spent at Camp Curry in the Yosemite National park and are now visiting with friends in Los Angeles for several days.

Ed Singleton, son of the president of the Missouri State Life Insurance company, is scheduled to arrive here today from St. Louis, for a visit with his cousin, F. E. Moore.

Mr. and Mrs. M. S. Justis of Kansas who are spending the summer with Mrs. Justis' father, George Nay, will spend next week visiting relatives in Pasadena. Thursday they were in Long Beach visiting old friends. Visitors at the Nay home Sunday will be, in addition to the house-

guests, Mr. and Mrs. R. M. Morill and daughter of Pasadena and C. N. Bloom of Kansas.

Mr. and Mrs. F. P. Nickey Jr. and Mr. and Mrs. L. A. Gowdy have returned from a ten days' outing at Yosemite, returning via San Francisco and the coast route.

Mr. and Mrs. W. S. McVay of 300 West First street are at home from a pleasant motor trip to Vancouver, B. C., having visited the principal cities en route, also Crater Lake and points of interest along the Columbia river highway.

Harold E. Wahlberg, county farm advisor, Mrs. Wahlberg and their children are enjoying a vacation trip to the northern part of the state, planning to be away two weeks.

Dr. and Mrs. J. R. Wilcox and children of 220 South Birch street are at home after a five weeks' trip to Chicago and other points east. Dr. Wilcox went east to see his father, who was ill, but whom he left greatly improved.

Cyril Collins, son of J. L. Collins, landscape architect of 821 Garfield street, has been appointed to a position with the Bell Telephone company in San Francisco, following a competitive examination among the graduates of the University of Washington.

Young Collins was one of the two selected for the position.

Mr. and Mrs. T. Stewart Blair of Wyandotte, Mich., are guests of the former's parents, Dr. and Mrs. Thomas S. Blair of 418 South Broadway. Mr. Blair was formerly connected with the California Fruit exchange, but is now in charge of the research department of the J. B. Ford company of Wyandotte.

Death Notices

A WORD OF COMFORT
Perhaps a part of your life has been uneventful. Some learned men seem to lack the power of sympathy. Some are sternly devoted to doing right yet strangely inconsiderate. Many unlearned folk are wonderfully kind; many are thoughtful of those they love, yet weak in the face of temptation.
Your sorrow may be the means of rousing the latent capacities of your soul so that now you will know a fuller, rounded life with interests which escaped you heretofore. Seize the opportunity to see where you have been failing and open your heart for strength to fulfill the new tasks which are disclosed.

SMALLLEY—Mrs. Isabelle Smallley, 63, 1223 West First street, at 10:30 a. m. today. Funeral services from Smith and Tuttle parlors Monday, at 10:30 a. m. Burial in Fairhaven cemetery.

Silver Stolen From Pastor's Home Recovered

Part of the loot taken by burglars from the home of the Rev. W. E. Roberts, pastor of the First Presbyterian church here, on Sunday morning, April 4, while the pastor was in the church delivering his sermon, has been recovered by the Los Angeles police, according to information received by Santa Ana police today.

A letter from R. Lee Heath, chief of the Los Angeles department, stated that much of the silverware stolen from the Roberts home had been found in a Los Angeles pawn shop.

Souvenir spoons, together with a number of sterling silver spoons with the letter "R" were among the articles recovered.

The man who pawned the stolen silverware also pawned other silver spoons and dishes at the same time, the letter informed local police. A description of the other silver does not tally with any silver stolen here recently, however. Chief of Police Claude Rogers said.

INSURE ELM TREES
ST. LOUIS—Two large elm trees in front of a theater here will be insured for \$50,000 if a London company grants the request of the theater.

WORSE AND WORSE.
LONDON—Some of the new trousers are a yard around at the bottom of the leg.

The Well-Dressed Man
By BEAUNASH
Correct Clothes To Meet The Obligation Of Every Occasion

JUST ABOUT SLIPPERS
Seemingly, slippers are a small subject to write about, but they are really twice as big as any other subject, because there are two of them. The wise wife insists that the way to a man's heart is through his stomach, but via his feet is not a bad way, either. Get a man to put on his slippers and he is discreetly dissuaded from spending the evening in that vast and vague realm called "at the club" or "with the boys". Abroad, a man may own a round dozen pairs of house, bath and beach slippers in various materials, but Americans are not usually wearers of slippers, not even carpet-slippers. Perhaps we feel that, slipped, we might be caught off guard by an unexpected visitor, or it may be that there is a furtive feeling of "gumshoeing" about the blooming things. Anyway, if we averaged one pair of slippers to every male in the population, the slipper factories would be kept humming night and day.

Slippers may be divided into three types—house, bath and beach. House slippers are usually of soft ooze leather with flexible soles. Bath slippers are of Terry cloth, Turkish toweling or Japanese straw. Beach slippers are called sandals and are commonly made of stout canvas, laced or tied with broad tape. In these days when beaches are strewn with flotsam and jetsam, sandals are not only prescribed by comfort, but also by downright prudence.

Many men do not like to wear slippers, because, to them, a slipper is something that slips off regularly and remorselessly and must be groped for in the dark. Such slippers were better termed a sticker—it sticks on. Moreover, it is smart as well as useful, being procurable in bright stripes and figures, as well as plain grounds. The slippers, illustrated here, are made to match room or bath robes. Being without heels, they are sometimes called "mules". Such gay stripes help to give the humble slipper substantiality and dignity in the theme of dress, even though it is continually trodden underfoot. Own slippers a-plenty. Acquire them as an important part of your indoor or beach outfit. Give your feet a rest. Let them shed the cares of day and relax. Revel in slippered ease!

The Cheerful Cherub

I've told my last polite white lie. My pleasant smile is numb. When next I'm asked to tea I'll say, "No, thanks, I'd hate to come."

Fraternal Calendar

Neighbors of Woodcraft—Will hold business session and birthday party in the M. W. A. hall, July 20, at 8 o'clock.

S. A. Canton, Lady Canton club—Will hold joint pot luck dinner in Orange County park, Monday night, at 6:30 o'clock. Coffee, cream and sugar will be furnished. All are asked to meet at Fraternity knoll.

Women's Benefit association—Will hold all-day meeting Wednesday, July 22, at Huntington Beach. Pot luck dinner will be served and all members are urged to bring their own table service.

Local Briefs

Arrivals at Hotel Santa Ana include Dr. and Mrs. D. D. Smith, San Diego; F. R. Whittlesey, Seattle; M. Hixon, Los Angeles; B. Goldberg, Los Angeles; G. Beaupre, Santa Ana; Mr. and Mrs. E. C. Frost, San Diego; A. P. Clapp, Los Angeles; Mr. and Mrs. T. Reardon, Santa Fe Springs; Mr. and Mrs. G. M. Bryde, Los Angeles; Stewart Williams, Pasadena; Helen Hishell, Los Angeles; Mr. and Mrs. Harry Wilson, Fowler; W. F. Kofahl, McPatrick, Calif.

Prominent among arrivals at St. Ann's Inn are Mrs. G. B. Garrison, Ontario; Mrs. M. Daley, Ontario; C. P. Peters, Los Angeles; M. L. McLeod, Los Angeles; Miss H. B. Marcell, San Francisco; Miss Margaret Flora, New York City; George E. Flora, San Francisco; Julia Aiken, Los Angeles; Norma Weiss, St. Louis; Mr. and Mrs. H. B. Mason and Miss Sobry Mason, San Diego; G. A. Christensen, Los Angeles.

All Orange county Christian Endeavorers will meet at the Santa Ana evangelical camping grounds Sunday, July 19, at 4:15 p. m. for an echo meeting of the San Diego and Portland convention.

Packed houses are greeting Miss Beattie Mae Randall, pastor of the First Square church here for the last year, at San Pedro, where she is conducting a 10-day revival, according to word received in Santa Ana today. Miss Randall is being assisted in the campaign by several Orange county residents.

F. T. Martin and family have sold their five-acre ranch at Costa Mesa and will remove next week to 1451 Orange avenue.

Word received today from Mr. and Mrs. Fred H. Rice at Walla Walla, Wn., indicate that they are enjoying their extended motor trip through the north. They attended the Elks' convention at Portland the first of the week, and from their present location will proceed to Vancouver, B. C. Their itinerary also will include Yellowstone National park, a visit at the former home in Michigan, and a considerable time of spent in Massachusetts by Mr. Rice on business interests.

W. J. Morrison sr. of the carrier force of the Santa Ana post office, and Mrs. W. J. Morrison of No. 516 East First street, Santa Ana, with Capt. W. J. Morrison jr. of the Los Angeles fire department, and Mrs. Elizabeth Britting, of the May Co., Los Angeles, have taken a cottage at the Bolden Horseshoe camp, at Big Bear, for the week of the 20th to 25th, departing early Sunday morning, July 19, 1925, by auto.

LOCAL FRIENDS OF McFARLAND MOURN PASSING

Death in San Francisco yesterday of George E. McFarland, chairman of the executive committee of the Pacific Telephone and Telegraph company system, came as a great shock to Earl S. Morrow, local district manager for the telephone company. Death followed an operation.

Funeral services will be held at the family home at Hillsboro, Calif., Monday, at 10:30 a. m., at which time employees of the Pacific system will stand at attention for one minute. Long-Distance service also will be suspended for the minute.

Morrow entered the employ of the company at Sioux City, Ia., in 1907, under McFarland, the latter being superintendent of the Iowa Telephone company. Later they were together for 10 years in the general office at Des Moines, where Morrow was chief clerk of the accounting department. McFarland and his wife were here two months ago on a visit to Mr. and Mrs. Morrow.

Retires As President
According to N. R. Powley, vice president and general manager of the system, McFarland was one of the outstanding figures in the telephone world, having an unbroken record of 25 years in the telephone business. He was a native of Iowa and was 62 years of age. On Jan. 1, 1925, he retired as president of the Pacific Telephone and Telegraph company and the Southern California Telephone company and became chairman of the executive committee of both companies. Prior to accepting the presidency of the Pacific system in 1913, he had filled many telephone positions with the Bell system companies of the middle west. His last position in that territory was vice president and general manager of the predecessor companies of the Northwestern Bell Telephone company, with headquarters at Omaha, Neb.

Mr. McFarland was well known in Orange county and in Southern California circles. He spent much of his time in Los Angeles and was in active charge of the properties there for some time.

Success in Business
"McFarland had every attribute of success," Powley said. "He knew the telephone business from the ground up and his climb up the ladder of success started from the position of lineman, through various successive stages of the work, to the pinnacle position of chairman of the executive committee. His character was unimpeachable. No man in the business has contributed more to the business itself and to the welfare of its employees. He had all the sterling qualities embodied in the beloved Lincoln. His poise, his tolerance, his initiative, his understanding, his broad friendship, his earnestness were evidenced in every act of his daily life. There is no one man in the telephone organization of the thousands of employees, who has had greater respect and greater love from the organization as a whole and from each individual than McFarland himself. There can be no measure of the loss of this man."

"McFarland's unbroken service record of 45 years with the Bell system was substantially as follows: "Entered the employ of the Bell system as manager and line man, Marshfield, Telephone company, 1880; superintendent of construction, Iowa and Minnesota Telephone company, 1882; general superintendent, 1884; Iowa Union Telephone and Telegraph company, superintendent, 1886; general superintendent, Iowa Telephone company, 1906; first vice president and general manager, 1907; general manager, Northwestern Telephone company, 1909; president Pacific Telephone and Telegraph company, 1913; chairman of the executive committee, 1925."

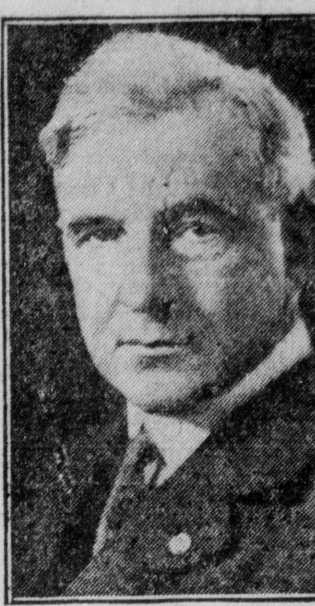

"The dead man's history was one of constantly increasing responsibilities, always met with industry, ability and loyalty. His career is an inspiration to every telephone employee. His work and attainment of high position were never at the expense of cordiality, kindness and consideration for those whose privilege it has been to be associated with him. I know of no other man that I admired more than George E. McFarland, and his life is an inspiration to those of us who have been privileged to have an association with him."

A communication inviting members of the Santa Ana lodge of Elks to an outdoor meeting on the El Recreo club grounds, near Pomona, next Saturday night and Sunday morning, July 25 and 26, has been received here from Pomona lodge, sponsors of the event. A barbecue, athletic events and a general good time are promised. The entertainment is open to all Elks upon presentation of their membership cards.

Kiddies Will Get Free Show Tickets

Kiddies of Santa Ana will have an opportunity to see "How Dreams Come True" at the West End theater, Monday, Tuesday, and Wednesday of next week, through the courtesy of the Fix-it shop, 105 East Third street, whose proprietors, Jack and Ray Stedman, announced today that every child who calls at their place of business on those days will receive a free ticket to the show. The film to be shown is owned by the Cycle Trade of America, and is a true story of a real boy in one of the larger eastern cities who desired a bicycle which he didn't have. Ben Alexander, a star in the class of Jackie Coogan, is to occupy the center of the stage.

GETS LAST CALL

George E. McFarland, outstanding figure in the telephone world, who died yesterday in San Francisco.

STATE POLICE SHAKE-UP NOT FEARED HERE

Following reports received yesterday from Sacramento that a state-wide reorganization of the traffic department of the state division of motor vehicles was taking place, and that various changes were to be made throughout California, it was freely predicted in local police and county offices that Orange county would not be affected by the proposed changes.

That Orange county has one of the best traffic squads in the state, one that stands at the top of the list, was reflected by a visit to the local department several days ago by Will H. Marsh, chief of the state department.

Marsh conferred with county supervisors when here regarding the local squad and on leaving is said to have remarked that he was well pleased with the Orange county squad and that he classed it as high as the San Diego group, which he had previously declared was the best in the state.

Capt. Henry S. Warner, head of the local department declared today that, from the manner in which Marsh talked to him regarding the officers he felt certain that his squad was considered among the best in the state, and that he felt no apprehension regarding the proposed shakeup.

Members of the local force have broken into the limelight recently on several important cases and have made names for themselves throughout the state, police officers say.

At the present time, the local squad is directing its energy against alleged speeding by heavy trucks on the boulevards, no less than five having been halted and their drivers arrested within the last two days.

Court Notes

Granted Divorce
Lucy Sweet, of Fullerton, was granted an interlocutory decree of divorce from Charles H. Sweet yesterday in superior court. Judge R. Y. Williams heard the case. Mrs. Sweet was also given the right to resume her maiden name, Lucy Casselman. Attorneys Allen and Lyon, Fullerton, represented her.

Negro Divorce Case
William Jones, colored, of Anaheim, and his wife, Stella, resumed their divorce contest today before Superior Judge E. J. Marks. Mrs. Jones attempting to procure a decree on grounds of cruelty. The case first came before Judge Marks July 2, the day he commenced his duties as judge. It was continued after a day of trial for further evidence.

Judgment Entered
Judgment for recovery of a \$700 automobile, or that amount in cash, was entered last yesterday in the suit brought by the Southwest Finance company of Long Beach, against Fred Davis. Attorney Wilbur F. Downs represented the plaintiff. Judge R. Y. Williams heard the suit.

Jose Gallardo, 27, charged with contributing to the delinquency of a minor, one Antonia Sessena, 16, was held to answer to the superior court in \$500 bond, in Justice Kenneth Morrison's court early today. He was returned to the Orange county jail, when he failed to make bail.

PRISONER SAYS HE IS 'ESCAPE' FROM L. A. CAMP

Paul H. Brown, 21, being held in the Orange county jail, following his sensational capture by police officers Friday night, is an "escape" from the Los Angeles county road camp, according to Herman Zabel, fingerprint expert, who told Chief Claude Rogers the man had confessed.

Brown was arrested here Friday night in a drug store on a charge of issuing worthless checks. At the very front door of the city police station, he pushed an officer aside, made a mad dash for liberty, and was not captured until several officers had chased him for several blocks, firing at him with revolvers.

According to Zabel, the man admitted that he escaped from the road camp on the night of June 23. He is alleged to have confessed that he was serving a year's sentence in the camp, having been sent up on a statutory charge.

Although police are searching the entire city for Brown's companion, who escaped at the time Brown was arrested, they have found no clue of him. Police are of the opinion that the man also escaped from the road camp.

A search also is being made for a handbag which officers believe contains a protectograph, used by Brown and his companion in writing several worthless checks, which were passed at several drug stores in Santa Ana. They are of the opinion that the bag has been left in some rooming house, and ask proprietors to aid them in the search.

Brown has not been arraigned, but will be brought before Justice K. E. Morrison Monday. In the meantime, the police hope to weave a tighter chain of evidence around him.

FAILS IN SUIT ON HOUSEHOLD GOODS

An attempt by F. A. Holbrook to gain possession of household goods from Matilda K. Dearing failed in superior court when Judge Z. B. West late yesterday granted a motion for non-suit of the case. According to testimony at the trial yesterday, Holbrook purchased a quantity of household effects and other personal property which comprised part of an estate. The goods had been in storage and were bought from the executor of the estate six years ago.

In checking up his purchases, Holbrook found certain articles missing. He searched in vain, with the executor's aid, but could not locate them. Finally, a few months ago, he discovered the articles were in the possession of Matilda Dearing, one of the heirs of the estate. He made demand upon Mrs. Dearing for the goods, but she claimed they belonged to her and would not give them up. Holbrook filed suit through Attorneys Head, Rutan and Scovel.

In court yesterday, Attorney S. M. Davis, representing Mrs. Dearing, moved to non-suit the case on the ground that action was barred by the statute of limitations. This statute, he argued, outlaws any claim that has been delayed more than three years. Attorney George K. Scovel, for Holbrook, argued that the time for reckoning the delay in the case at bar commenced when Holbrook discovered where the property was and made demand upon Mrs. Dearing.

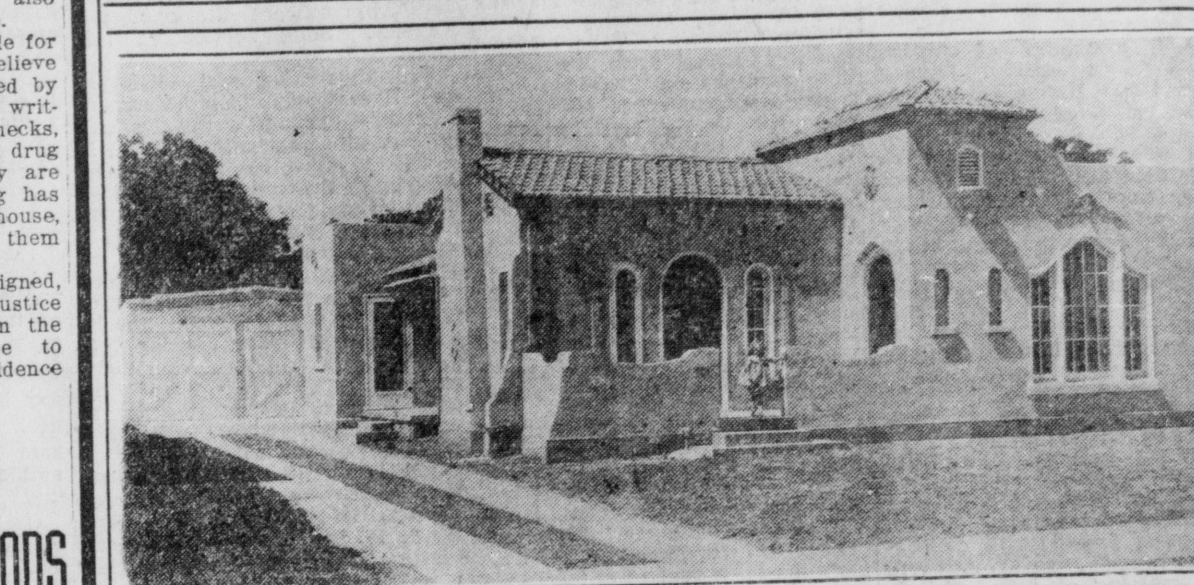

The court ruled in favor of the defendant.

DOLLS PAY SCHOOL BILLS.
HELENA, Mont.—Mrs. O. L. McCracken, wife of a ranchman, has paid all her daughter's school bills by carving attractive dolls out of the roots of cottonwood trees.

"God's Truth"

MADE A NEW WOMAN OF HER

That Is What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Jenkins

Middleport, Ohio. — "I am going through the Change of Life and I am taking Lydia E. Pinkham's Vegetable Compound for the troubles that come at that time. I got so run-down I could scarcely do my work and I keep a roominghouse and have a family of eight to take care of. A friend told me about the Vegetable Compound and it has made a new woman of me. I keep it in the house all the time now and won't be without it. My weight got down to 90 pounds and now it is 132 1/2 pounds. I give the Vegetable Compound the praise and hope that women will realize the good in it." — Mrs. MYRA JENKINS, 593 North Front Street, Middleport, Ohio.

Over 200,000 women have so far replied to this question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

98 out of every 100 of the replies say "Yes," and because the Vegetable Compound has been helping other women it should help you. For sale by druggists everywhere.

Guests at Our Village Include Art Gallery Among Pleasures

"The HaBe," that pleasant Laguna Beach cottage of Mrs. Hansen and Mrs. Benight, prominent Hermosa O. E. S. members, which not only suggests its chateaulines in its spelling, but for "home sweet home" in its pronunciation, was setting for a gay event yesterday when past matrons of the chapter were entertained at luncheon by Mrs. Benight, Mrs. Hansen and Mrs. Minnie Briggs.

Twenty-three members of the association motored to "Our Village" to enjoy the cooling breezes, the artistic home and the delectable luncheon. Added pleasure was given by the presence of a very charming guest in the home, Mrs. Benight's sister, Mrs. Bowen of Perry, Okla.

Arrival at the beach city was followed by a visit to the art gallery where the July exhibit of canvases was highly enjoyed. The curator gave the Santa Ana visitors an outline of what was planned for the August display when Laguna will be the county's center of interest on account of the four day fiesta planned for the first week. The pictures promise to surpass even the present display in point of interest and the Past Matrons' association members hope to visit the gallery during the month.

Continuing on to "The HaBe" on its airy perch on the cliffs, the guests found a warm welcome in a cool home where a daring arrangement of dahlias, statice and purple Martha Washington geraniums excited much comment. Luncheon was served at small tables and the afternoon devoted to friendly chat.

In August the association plans a family picnic at Bixby park, Long Beach, whither the members and their families will repair on August 20.

Hostesses Compliment Their House-guest

Mrs. P. E. Gatchell of 722 Orange avenue and her daughter, Mrs. Ted Craig of Brea were joint hostesses on Wednesday afternoon to a coterie of friends in honor of their house guest, Miss Leola Stewart of Buckley, Wash.

The pleasant affair was held at the Gatchell home, which is ideal for entertaining. The spacious living rooms were embowered with flowers, an artistic yellow color motif being prettily carried out with marigolds and dahlias, just now the height of their blooming.

After greetings to the honor guest and hostesses, the guests were seated at the card tables for 500, the appreciated prizes going to Mrs. Ruth Riggie, Miss Ruth Langley and Mrs. Ida Shelton. A delicious two-course collation was served at the close of the afternoon, consisting of sandwiches, olives, pickles, iced tea, ice-cream and dainty home-made cakes.

Those participating besides hostesses and honor guests included Misses Beatrice Bullock, Merle McElhanon, Ruth Galloway, Ruth Riggie, Ida Shelton, Anne Leimer; the Misses Fern and Barbara Vickroy, Ruth Langley and Lois Sweet.

FORMER S. A. MAN TAKEN IN POMONA

Peter Crist, 37, former Santa Ana restaurant owner, was arrested in Pomona last night, on an embezzlement charge, and was brought to the Orange county jail. He was arraigned in justice court today, and examining trial set for July 27. Bond was fixed at \$1000. The man returned to jail when he failed to furnish witness in the case, charges Crist with feloniously taking and disposing of 18 marble-topped tables, 40 chairs, a cash register and an electric sign, part of the restaurant fixtures, valued at \$675.

According to police, Crist bought a restaurant here last year from Kintz, paying \$4000 for it. Of this amount, \$2000 was paid in cash. Before the balance was paid, Crist is alleged to have failed in the business.

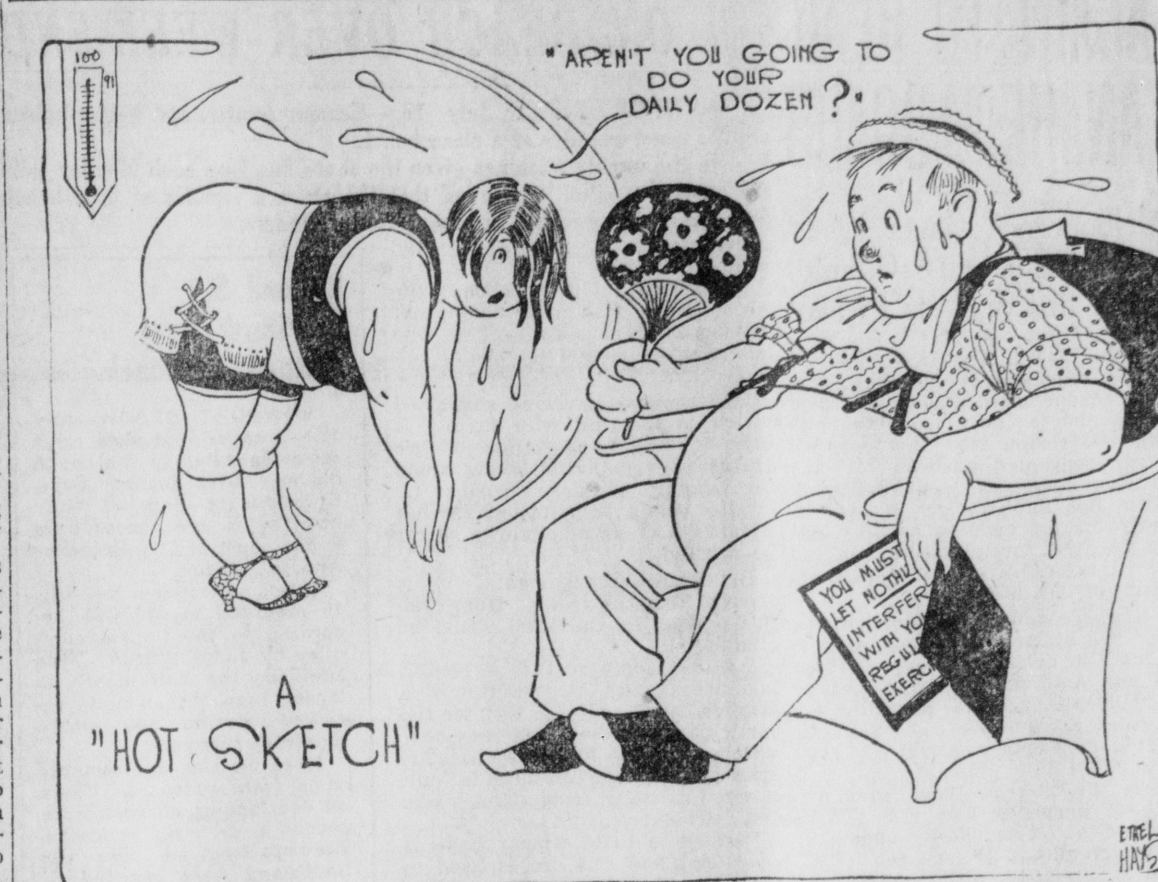

Crist was living in Pomona when arrested.

Speaking of the Recent Hot Spell—

Six O'clock Dinner In Compliment to Bride-elect

One of July's brides-elect was complimented in a delightful manner Thursday when Miss Lillibell Chaffee of 1005 Tucker street presided at a 6 o'clock dinner where place of honor was given Miss Lula McDowell, fiancée of William McGowan, whose wedding is scheduled for Saturday, July 25.

Miss Chaffee planned all her decorations to harmonize with the rose-color dreams of her honor guest, and used spicy carnations to center the table where an elaborate chicken dinner was served. Place cards, nut-cups and all dainty appointments were in pink.

The climax of the happy event was reached as the dinner drew to a close, for Miss McDowell was surprised with a shower of towels of every variety imaginable, ranging from the daintiest of embroidered guest towels to the big fleecy bath variety. With the towels (one from each guest) were included some additional packages each of which offered a unique and amusing joke gift for the bride-elect.

The remainder of the evening was devoted to appropriate games and was enjoyed by the hostess, Miss Chaffee, her honor guest, Miss McDowell, Mesdames Eva Loper, Fay Meister, Golden Lee Walker, Gladys Williamson, Alpha Wright and little daughter Marilyn and the Misses Bonnie Sitton, Blanche Crowther and Millie Kiens.

Gay Garden Party For White Shriners

Half a hundred members and friends of Damascus White Shrine of Jerusalem discovered for themselves, the charms of the Henry Walters gardens at 1001 North Parton street when on Thursday evening, Mr. and Mrs. Walters entertained at an al fresco affair. Twinkling lights illumined the scene, bathing the waters of the pool where goldfish swam. Dappled shadows from the tall trees were cast on a wealth of flowers blooming in every corner. Tables were arranged with gay covers and at 9 o'clock were utilized for whist at which high honors were carried off by Mrs. Judson Sutherland and J. H. Nicholson. Each received a charming oil painting, work of the hostess, Mrs. Walters whose skill with the brush is well-known among her friends. Mrs. Maud Swarthout and Harry Staples, with second high scores also received paintings that floated on the pool, were given Mrs. Charles Dahlem and Thomas R. Overton that they might sail to victory at the next party.

At a late hour, card-table covers were exchanged for dainty linens and guests were given the pleasure of eating strawberry ice-cream served in halved cantelopes, coffee and lady-fingers.

Summer Visitor Paid Social Compliment By Friends

Honoring Mrs. Phyllis Gray, wife of Dr. E. E. Gray of Marysville, Mrs. H. L. McKague of West Walnut street was hostess yesterday to a group of congenial folk assembled for a bridge luncheon. After an enjoyable menu featuring salad, the daintiest of sandwiches, raspberry ice and angel food cake among its delicacies, the pretty luncheon linens were removed and card-table covers substituted. Gayly designed bridge tables were distributed and the remainder of the afternoon devoted to cards. Mrs. Benno, scoring high, received an attractive combination of bridge score cards and tally set while a bridge pencil masquerading as a saucy doll, was consolation gift presented Mrs. Copeland.

Those comprising the party were the honoree, Mrs. Gray and Mesdames O. Umberham, C. C. Copeland, R. Jacquith, R. Ingalls, T. F. Ham, S. I. Preble, Benno and the hostess, Mrs. McKague.

The charming honoree is a sister of Mrs. Jaquith and is to be her house-guest for an extended length of time, to avoid the heat of her home city. Many pleasant social affairs have been arranged to compliment her, among them a bridge luncheon which Mrs. Ham sponsored last week at her home on South Garnsey street. Similar happy events are planned for her in the future.

Special Program Church Services

That a special program of music, featuring Wagner numbers would add to the interest of tomorrow's evening services at the First Presbyterian church, was announced today by the organist and choir director, Miss Ruth Armstrong.

The quartette will sing "All Praise to God in Light Arrayed," adapted from Lohengrin and other numbers will include the "Swan Song," as a violin solo by Elwood Bear; "The Pilgrim's Chorus," from Tannhauser by A. J. Garroway; and organ numbers, "Overture" to Lohengrin, "March" from Tannhauser and as offertory, "Sweet Evening Star," Miss Armstrong.

Late Afternoon Hour Was Selected For Quiet Wedding

At 6 o'clock on Wednesday afternoon, July 22, occurred the simple but pretty nuptials of two young easterners, Miss Florence A. Leonard of 802 West Third street, formerly of Cornell, Ill., and Edward Hyberger, prominent young business man of Onarga, Ill. The ceremony was held at the parsonage home of the Rev. Moffett Rhodes, pastor of Spurgeon Memorial church with just a few friends present, the group including Miss Wilma Jameson who assisted Miss Leonard as bridesmaid and Dr. W. F. Kisting, best man for Mr. Hyberger.

The bride wore a charming frock of soft pink silk crepe, lace-trimmed and carried roses in a slighter deeper tint. Following the wedding vows, the party went to the Dr. Kisting home on South Main street where an elaborate course dinner was served at a table whose artistic appointments accented the rose tint chosen by the bride for her wedding color scheme. Later the happy pair left for a two weeks' honeymooning through the southern part of the state and on their homeward route to Onarga, will tour Colorado. In Onarga, the young people will establish their home. During her residence in Santa Ana, Miss Leonard had been in the office of Dr. Simpson where her pleasing personality won her many friends.

Shell Employees In Park Party

The Shell Social club held a most enjoyable picnic and dance Wednesday evening at Orange county park. About 20 employees and their families were present at the event, which was one of those arranged each month by the club. A feature of the evening was an ice-cream eating contest, won by a safe margin by Willard Moyers. A generous number of games and stunts were on the program. Music for the evening was furnished by Huson's dance orchestra.

Santa Ana Players at Harbor Yacht Club Carry Off Honors

Aided by Mrs. William Warmington, wife of the commodore at Newport Harbor Yacht club, two Santa Ana hostesses, Mrs. Robert G. Tutill and Mrs. J. H. Cloyes, yesterday presented a most enjoyable bridge luncheon, one of the series which brightens Friday of each week.

With the large number of summer resident-members now at Newport, Balboa and the clubhouse and the many that go down from various cities of the southland for the week-end, to say nothing of the fortunate Santa Ana members whose proximity to the clubhouse makes attendance an easy matter, the social affairs of the Yacht club throughout the summer, rival in charm those of the more formal winter events.

Yesterday's luncheon and bridge was no exception to the rule and the continued heat of the day, made the breeze-swept lounge and verandah a delightful retreat. Wicker baskets filled with flowers suggested summer gardens, those on the wide verandah overlooking the bay where card tables were arranged, being particularly lovely. Tall spikes of gladioli in a very rainbow of colors, dahlias richly lovely and looking more like glorified chrysanthemums than the old-fashioned garden favorite, all added their decorative touch.

Luncheon tables in the dining salon were arranged with linens in the club colors of blue and gold and centered with flowers repeating the hints. Many guests were entertained, the Santa Ana hostesses adding several to the number.

Prizes for the weekly card events have been standardized following the wise suggestion of Mrs. Warmington, and the winning clubmembers each week receives a set of Madeira embroidered tea-napkins while to the guest winner is awarded a handsome linen guest towel in Florentine embroidery. Much amusement was created when one of the hostesses, Mrs. Cloyes, carried off honors among the Yacht club members. She murmured when presented with the prize, but was assured by Mrs. Warmington that acceptance was quite in line with the policy of the weekly events.

To Mrs. Rodney Atsatt of San Francisco, was presented the pretty towel, her score being higher than that of any other guest. Mrs. Atsatt was introduced by Mrs. Tutill, chairman of the hostess committee, so Santa Ana quite walked away with the honors. The young matron is here from San Francisco for a visit with her parents, Mr. and Mrs. George S. Smith, 916 French street, she and Dr. Atsatt leave for Boston late in September to be with her father, Dr. Atsatt, an orthopedic surgeon and a Berkeley graduate, will do post-graduate work in the orthopedic department of Harvard.

Yesterday's card party at the Yacht club will be followed by tonight's informal dance which is expected to attract quite as enthusiastic a group as have its predecessors.

Business Women's Club

Mrs. Helen Stedman, chairman of the July entertainment committee of the Business and Professional Women's club, promises a uniquely attractive program for Monday's luncheon at St. Ann's luncheon where juvenile entertainers will be honored guests.

A small maiden from Garden Grove, noted for her graceful dancing, will present part of the program while the remainder will be given by a fraternal trio of lads, the three sons of Mr. and Mrs. Robert L. Brown, Bobbie, Matthew and David.

Master Bobbie will preside at the piano, his brother Matthew will play violin selection while David, the littles and the liveliest, has been prevailed upon to sing.

The Quickest Way to Find Lost Articles

Whenever you lose anything, remember the quickest way to get it back is to place a "Lost" ad in The Register. Your ad will search everywhere in town—it will reach every family—and if the article advertised has been found, your ad will bring it back.

And when you find anything and are unable to locate the loser, insert a "Found" ad in The Register. Only then have you made every effort to restore the article to its rightful owner.

NEWS from ORANGE COUNTY

SURVEY JETTY AS FIRST STEP IN REPAIRING

Low Places to Be Filled And Entire Breakwater To Be Strengthened

NEWPORT BEACH, July 18.—Survey of the jetty at the entrance of Newport bay was made yesterday as the first step in the \$50,000 program for the repair of the damaged breakwater.

Data was collected by the county surveyor's office for estimating the materials necessary to restore the construction.

Bids are to be asked for the repair work. It is expected to have the project completed within the next few months. The construction calls for the building up of the low places and strengthening of the jetty.

In the present condition the breakwater does not require repairs at the outer end but large gaps have developed along the structure, according to Anter De Raga, observer of the United States weather station at the Palisades. The repair of sunken spots over which the waves dash is planned by the county to protect the entrance of the harbor.

Paving Program At Laguna Beach Given Approval

LAGUNA BEACH, July 18.—Robert M. Morton, of Sacramento, state highway engineer, has given his consent to the paving of a twenty-foot strip one mile through Laguna Beach from the end of the Boat Canyon cut at Myrtle street to a point between Cypress and Cress streets, Arch Beach. The pavement will go through the heart of the business district. The only condition is that the question of rights of way be settled. Mr. Morton also gave his consent to the letting of a contract for the grading and surfacing of the state highway from Arch Beach to Serra. His condition on that also was the securing of the rights of way either by gift or condemnation. Mr. Morton, accompanied by Nelson T. Edwards, state highway commissioner, and S. V. Cortelou, division engineer, on a tour of inspection over this section of the coast highway. All along the coast highway link to Serra and that the funds are in sight. It is absolutely against the policy to proceed, however, until rights of way have been secured or condemnation suits started.

Use Port For Playground Is Chamber Desire

FULLERTON, July 18.—Urging a change in plans of county officials, the board of directors of the Fullerton chamber of commerce passed a resolution suggesting that the Newport harbor be used as a pleasure resort, and not as a commercial center, at their regular meeting today.

The directors stated their belief that the harbor could be used to a much greater advantage as a summer and winter resort than for factories and shipping junctions. The ideal possibilities for a playground, and the possibility of establishment of motion picture studios formed the basis of their argument.

A \$50 reward was offered by the directors for information leading to arrest and conviction of the person or persons who have been destroying signs placed at entrances of the city by the chamber of commerce. Members of the board expressed their belief that small boys had been throwing rocks at the ornamental welcome signs.

Register Writer Takes Vacation At San Juan Springs

MISS LULU ROSS.

IRVINE, July 18.—Miss Lulu Ross, Irvine correspondent for The Register, is leaving the first of the week for San Juan Hot Springs with her mother, Mrs. Ross, making the trip for her health. Miss Ross is well known in the Irvine and Tustin districts, having been a student at the Tustin high school for the past several years. She was a graduate this year. Miss Ross expects to be with her mother about two weeks before returning to write again for Irvine people.

SPECIAL DAYS AT EPIC PLAY ANNOUNCED

MISSION SAN JUAN CAPISTRANO, July 18.—With tomorrow to be observed as Santa Ana day, George Gerwing, business manager for "The Mission Pageant of San Juan Capistrano" to day announced more special dates. The following days have been set aside:

Santa Ana day, July 19.
Farm bureau day, July 26.
Diamond Jubilee day, July 26.

Native Sons and Daughters of the Golden West day, August 2.
Young Men's Institute and Young Ladies' Institute day, August 16.

Because the history of Santa Ana and San Juan Capistrano are so familiar to the residents of the former city, Gerwing said he expected one of the largest crowds of the season tomorrow.

Invitations, he said, will be sent to the secretary of every farm center in Orange county, inviting the members to attend the "epic drama" July 26. That day will also be marked as California Golden Jubilee day and it is expected that Governor Richardson and perhaps several other state officers will be in attendance.

An excursion train will run to the mission August 2 to bring the Native Sons and Daughters of the Golden West, Gerwing said. Large delegations from that organization are also expected from Long Beach and San Diego.

Both of the organizations of Catholic young people are boosting for the performance of the play August 16, the business manager said.

Require Cash for Purchase of Park

GARDEN GROVE, July 18.—If Garden Grove secures the proposed park site at the corner of Stanford and Euclid avenues it must provide for a cash purchase, according to the announcement made at the chamber of commerce meeting. H. A. Lake, president of the chamber, and a member of the park committee, stated that approximately \$3000 more would be needed to float the purchase.

The committee now has the larger portion in cash and pledges, and it is thought that the balance can be secured by additional subscriptions.

TUSTIN LODGE TO OCCUPY NEW \$40,000 HOME

First Session of Pythias Organization In New Building Tuesday

TUSTIN, July 18.—Members of the Knights of Pythias will take possession of their new lodge quarters next Tuesday evening. At that time the lodge will hold its regular meeting. Already several of the businesses in the lower floor of the structure have moved into their new quarters. The Tustin Drug store recently moved into the large quarters provided on the corner of the building.

The new lodge hall represents an expenditure of more than \$40,000.

Pythian Sisters started preparing for the opening of the new building at their last meeting, which was held in the old hall over the bank. A kitchen shower was the feature of their evening gathering. Members brought various articles which will be used in the large kitchen which is a part of the new meeting place. A large banquet hall, a large meeting hall, dance floor, and stage are included on the upper floor with kitchen, officers' rooms, cloak rooms and rest rooms.

A large attendance witnessed the initiation of two new members into the Pythian sisters at their meeting. The new members were Mrs. Walter Cook and Mrs. F. Boosey, of Irvine.

A joint meeting between the Knights of Pythias and the Pythian Sisters will be held July 30, when the general public is invited to attend and inspect the building. A 500 card party will also be given. A small admission charge will be made and the proceeds will be used to further equip the kitchen.

CAR STOLEN IN L. A. IS FOUND IN FULLERTON

FULLERTON, July 18.—Recovery of an automobile stolen in Los Angeles was announced today, following a report of the theft from authorities in that city. The car is property of F. E. Warren, of 1637 North Colorado street.

Neighbors reported that the car was abandoned on West Chapman avenue by a queer looking stranger, who took a small black bag from the machine, donned a heavy black overcoat, in spite of the great heat, and walked away. No trace of him was found in the city.

Report of theft of an automobile was also made to the Fullerton authorities by Mrs. W. B. Shaw, of Buena Park. She said that her car was parked at the rear of the Masonic Temple, and when she returned later it was gone.

GIBBS CHOSEN AGAIN TO HEAD ANAHEIM BOARD

Melbourne A. Gauer, Elected to Succeed C. C. Smith As Principal Is Present

ANAHEIM, July 18.—Frank N. Gibbs, president of the local grammar school board during the past term, and the only member who did not resign for the ensuing term, continued as head of the trustees today, assisted by Miss E. Kate Rea and Homer E. Lewis, following his election as president at the first formal meeting of the new trustees. Miss Rea was named clerk of the board.

Coincident with the election was the preparation of a budget covering the anticipated expenditures of the Anaheim grammar school for the year 1925-26, providing for a total expenditure of \$142,735, which is approximately \$20,000 less than the amount collected from the district for grammar school purposes last year. Melbourne A. Gauer, newly appointed superintendent, to succeed C. C. Smith, resigned, also was present at this meeting of the new board.

Gauer explained that the reason for the huge slash in this year's budget was due to the fact that no building construction is planned, whereas \$38,000 was spent for this last year. Last year the tax rate of 57 cents included 15 cents for buildings and 15 cents for kindergarten work. This year the building tax is not requested and the kindergarten tax has been cut to 13 cents, thereby leaving a total of only 40 cents.

Employment of a physical director at the Anaheim grammar schools to develop this branch of the school's activities, was authorized, a decision being announced to make physical education a permanent part of the curriculum. Expansion of other school departments will include music, art, domestic science and manual training, each of which will be provided over by special instructors.

OLDEST KNOWN FOREST NEW YORK—Dr. John M. Clarke, New York state geologist, says the oldest known forest was growing a hundred million years ago on the site of what is now Gilboa, N. Y. He bases his statements on imprints of the trees found in rock formations.

Use Pigeons to Get Messages From "Y" Camp

FULLERTON, July 18.—Unique plans for communication with the Y. M. C. A. camp in the San Bernardino mountains were announced today by R. G. Adams, local automobile dealer, who sent several carrier pigeons to the camp, which are released daily by A. J. Raitt, local secretary.

A message received yesterday by Adams stated, "With camp half over, the rock work on the lodge will be finished today. The discovery of a spring across the stream from the camp brings joy to all. Tomorrow will be hike day, and a party of the older boys will go up Greyback for an overnight hike."

"The second series of the camp vs. leaders indoor baseball games will be played this afternoon. The leaders won the first game, and the campers vow that it won't happen again. A nice fox was caught yesterday."

BLAME GRUNION HUNTS AND WEINER BAKES FOR LITTER ON BEACH OVER WEEK-END

NEWPORT BEACH, July 18.—Grunion hunters and weiner bakers are the worst enemies of a clean beach.

In the weekly washings given the shore line here each Monday with the huge city rake, it is found that the charred remains of little beach fires are as disagreeable as an eye full of cinders.

"What about it?" asked the visitor.

"What about it?" echoes the townspeople, who have no idea of driving away pleasure seekers who add many a shekel to their coffers.

One proposal is being suggested which is meeting with favor. It calls for the construction of fire grates at regular intervals along the beach. At these furnaces facilities would be supplied so that weiners and marshmallows might be roasted.

By these arrangements, it is thought that the trouble from campfire parties on the sand would be eliminated.

Without some sort of a blistering, smoky fire all the life of a grunion hunter would be lost for the participants as they wait long hour watches for the little fish to start running. So the campfire is built of wood salvaged from signs, walks and drift debris.

Perhaps a little weiner bake is scheduled and the fire is used to roast the "hot dogs." Sharp appetites are satisfied and the party is dubbed a howling success.

But will the best kind of a fire grate replace the sanctum of the beach campfire ask the grunion hunters and weiner bakers doubtfully.

Meanwhile the test probably will be made and results noted, if the suggested plans are accepted.

The new proposal is in line with a program of the authorities for maintaining the ocean here in its enviable reputation for being one of the cleanest beaches of the Southland.

Anaheim Woman Dies On Golden Wedding Date

ANAHEIM, July 17.—Funeral services for Mrs. Anna Louisa Foster, 83, who died Wednesday, the date of her golden wedding anniversary, at the family home five miles west of Anaheim, were to be held Saturday at the Palm and McClure funeral parlors in San Pedro, with burial in Harbor View cemetery.

Mrs. Foster is survived by her husband, one son, C. W. Foster, of Stanton, and two brothers and two sisters in Canada. Mrs. Foster was a native of England, coming to the United States with her parents when she was a small child. She came to Southern California in 1882, moving to Anaheim from San Pedro in 1917.

Open Drive for Legion Funds In Anaheim Today

ANAHEIM, July 18.—The Anaheim American Legion drive for \$1500, this city's share in the national endowment campaign, officially opened here today, replies to letters sent to various civic, fraternal and religious organizations, all indicating that a generous co-operation would be assured.

The Legion committee is confident the quota can be raised in quick time without the necessity of personal solicitation or street canvassing.

MRS. HENRY IS WINNER SAN DIEGO, July 18.—Semi-finals and finals are on the schedule today in the La Jolla tennis championship tournament. Mrs. William M. Henry of Los Angeles yesterday won the women's singles title by defeating Miss Margaret Lord, San Diego, 8-6 and 6-0.

from
FilmlandFIVE ORPHEUM
ACTS OPEN AT
WALKER'S MON.

Another real Orpheum circuit vaudeville show is billed for Walker's theater Monday, Tuesday and Wednesday.

The Arco Brothers in "Athletic Artistry" will open the show. Each possesses a perfect physique and their feats despite the fact that they require superhuman strength are performed with astonishing ease.

Fred Bernard and Sid Garry, "Southern Syncopators," come from the south and have brought Southern syncopation along with them. They insert a number of very clever impersonations in their songs.

Tempest and Dickinson in "Rain-bean" offer a routine of songs, bright repartee and a dance or two. Lew Brice, brother of the well-known Fannie (and who does not know Fannie) in "Stick to Your Dancing," is always hailed with shouts of laughter. His act is a guaranteed cure even for an indigestion of blues.

Closing the show with a bang is Charles Withers in "Withers' Op'ry." (The old style variety entertainment of 50 years ago.) Each type of the glorious entertainment which distinguished the old village annual traveling show is presented with just enough exaggeration to make hilarious comedy.

On the screen will be "Head Winds" from the story of the same name. It features House Peters and Patsy Ruth Miller.

Jack Hoxie, whose latest picture will be the film attraction at Walker's Sunday.

"DON DARE DEVIL" AT
WALKER'S SUNDAY

Since the release of "Don Dare Devil," the blue streak western starring Jack Hoxie and which is to be shown at Walker's theater Sunday, there has been considerable speculation as to where its beautiful canyon scenes were taken. They are splendid examples of the photographer's art.

The scenes referred to were taken in Red canyon, near Mojave, Calif., and it is said to be the first time in the history of motion pictures that the peculiar strata of rock found in the canyon have been photographed in their natural color.

The Hoxie company spent several days there. Cliff Smith, who directed the picture, had been in the canyon before and instructed Harry Neuman, his cameraman,

to take along the special lenses, filters and films necessary to photograph the colorful formations of the background in shade approximating their natural contrasts.

"WHITE FANG" ENDS RUN
AT WALKER'S TODAY

The glittering snows of trackless Alaska, the furtive, flitting grey shadows of the Wolf Pack, and the great acting of "Strongheart," the world's most famous dog, will be seen for the last time locally on the screen at Walker's theater tonight when "White Fang" has its last showing. The Jack London story, transferred to the screen with marvelous vividness by Jane Murtin and Lawrence Trimble, has been delightfully packed houses with its smashing drama splashed in gorgeous colors across the vast panoramic background of some of the most beautiful scenery ever shot with a camera. Nothing is better proof of the value a real story on the screen than on those all too rare occasions when a novel of London's finds its way to the silver sheet.

Instance "The Sea Wolf." Here is a story that roars and echoes with action; that glitters with beauty, and that vibrates with the paths of human understanding and the greater understanding of a man who knew the heart of dogs. Theodore von Eltz, Ruth Dwyer and Mathew Betz play the principle roles; after that which belongs by right of ability to "Strongheart."

"THE EARLY BIRD"
OPENS RUN TOMORROW

A cast that gives every evidence of prominence will be seen in support of Johnny Hines when "The Early Bird" makes its initial debut at the West End tomorrow. Included in this stellar array of great screen talent are Sigrid Holmquist,

Anna Q. Nilsson and Lewis Stone in a scene from "The Talker," attraction at the Yost theater Sunday and Monday.

Wyndham Standing, Edmund Breese, Flora Finch, Maud Turner, Gordon and Bradley Barker, all of whom are stellar lights in the film world.

Miss Holmquist, who last appeared in C. C. Burr's "Youth for Sale," is rapidly carving out her niche in the screen hall of fame, and justly so, since the Swedish Mary Pickford as she is so aptly named, is coming in for heaps of plaudits wherever her pictures are shown. In "The Early Bird," Miss Holmquist has an exceptionally difficult role to portray and so well does she do her work that screen fans will be quick to realize that Miss Holmquist's star is at last in the ascendancy.

Wyndham Standing, who appeared in the starring role of innumerable pictures was obtained to play the role of the villain, and he, too, gives a remarkable performance. There is something about Standing's characterizations that make them decidedly real and sympathetic. Even as a "bad man," he is able to make audiences like him, and in "The Early Bird" he gives a really outstanding bit of realism to the screen.

YOUTH HOLDS SWAY IN
YOST PICTURE

A picture claimed by youth! It is "Are Parents People?" the current attraction at the Yost theater.

In the cast the balance is decidedly in favor of players who have not reached life's half-way mark. Betty Bronson is a vivacious little being of but seventeen years. Florence Vidor, although she portrays the role of Betty's mother, is, in every sense of the word, a young woman. Adolphe Benjou, who is seen as Betty's father, was forced to age himself by makeup so he could look the father. Lawrence Gray, Paramount's newest screen discovery, appears as though he had just graduated from college.

"THE TALKER" OPENS AT
YOST TOMORROW

They say that a change of scene is good for any actor. So Shirley Mason, film star, had one for the first time in over four years when she was loaned

to take along the special lenses, filters and films necessary to photograph the colorful formations of the background in shade approximating their natural contrasts.

"By this time I'm ready to go to work in earnest. The first step is to map out a rough skeleton of the plot as it is to be handled in continuity. That accomplished, I begin the hunt for proper atmosphere; frequent art galleries containing pictures of the particular locale; surround myself with books relating to the region the story is laid in.

"With the rough skeleton of the story on paper, I next proceed to embody it with little episodes and incidents of human nature; give it light and shade and weave in the necessary realism.

"Now comes the vital element of characterization. Sometimes I adhere strictly to the author's conception of his people. In other cases, when they seem to me a bit weak or false, I strive to bolster them up, to give them more vitality.

"Characterization is tremendously important. If a writer's characters live on the screen, an audience will forgive many shortcomings. On the other hand, no matter how cleverly handled the story, if the characters do not ring true with most originality, I have paper and pencil handy beside the bed. And while the rest of the household is still fast asleep, I sit up tailor fashion and scribble away to my heart's content."

An alarm clock is a very important

Rawlinson, Film
Star, Heads Yost
Bill for Sunday

Herbert Rawlinson, for many years one of the leading movie stars, will headline the five-act vaudeville program to be presented at the Yost theater Sunday and Monday. Rawlinson has a delightful personality and his act is said to fairly sparkle with originality. This will be Rawlinson's first personal appearance in Santa Ana.

Ethel Clifton, another of vaudeville's headliners, will bring her company here for a comedy sketch. Anderson and Yovel, whirlwind skaters, offer a novelty number with thrills. Troy and Company have a most humorous sketch. The bill is completed by the Dancing Demons, in which are six persons. This act comes to the local playhouse highly recommended.

tant instrument in Miss Mathis' writing routine. "Every morning at 5 my alarm bell rings," she says. "It is between the hours of 5 and 7 that I find my ideas flowing freest and with most originality. I have paper and pencil handy beside the bed. And while the rest of the household is still fast asleep, I sit up tailor fashion and scribble away to my heart's content."

BELIEVE IT OR NOT
BOSWORTH, Mo.—A big bull-frog recently swallowed a small duckling of Mrs. Steve McDonough, according to the Bosworth Sentinel, but it adds: "This should be convincing proof that Jonah was swallowed by a whale; but we suppose that those who doubt the whale story will also doubt the frog story."

Carves Peephole
In Bathhouse; Is
Given Jail Term

Arrested while he was alleged to have been peeping intently through a hole in the wall of the Huntington Beach bathhouse, woman's division, Steve Stimatz, 30, Wintersburg laborer, was sentenced to 25 days in the county jail by City Recorder Harry Stewart, of Huntington Beach, today.

Stimatz, who vigorously denied the charge, was given the alternative of going to jail or paying a \$25 fine. He chose jail. Officer A. E. Bannister, of the Huntington Beach police department, arrested Stimatz. He said the Wintersburg laborer had cut the hole through the wall with his pocket knife.

Don't Miss the Tuesday and Wednesday Chicago Shows. Bigger and Better Each Week

HOLLYWOOD, July 18.—The Lone Wolf of the motion picture world has grown at the Big Three of the movie world—Famous Players-Lasky, First National and Metro-Goldwyn-Mayer film corporations.

Harry M. Warner of the Warner Brothers charges the three movie companies with a "trust alignment" which has been greedily formed, he says, for the purpose of eliminating the independent producer and exhibitor.

"The actual facts are that if the entire country is considered, the downtown theaters in every key center—which is usually the principal city in every section—are controlled directly or by affiliation by the three companies," declares Warner, "80 per cent of the first-run theaters throughout the country are owned or controlled by the Big Three."

"They have combined for the purpose of running only the pictures that they themselves produce or distribute, whether they are good or bad, and it is next to impossible for anyone not a part of the combine to secure a first-run unless on rare occasions."

Harry Warner's campaign to open the field "in the name of fairness" if he succeeds, will also be of great vital concern to the United Artists Corporation, which has for its stars Mary Pickford, Douglas Fairbanks, Charles Chaplin, William S. Hart and Rudolph Valentino.

In a score of instances first-run theaters in America controlled by

the Big Three have shut their doors on pictures from United Artists.

In pursuance of this policy, keeping from the public the product of independent producers, Warner has entered into a "trust agreement" which is "contrary to fair and square play."

Would-be screen writers—and their name is legion—are constantly trying to pry from established scenarists the "secrets" of the craft. Some pay handsomely to learn the tricks from correspondence schools. Script writing is presumed to be jealously guarded against invasion.

June Mathis, celebrity among scenarists, adapter of "The Four Horsemen," "Blood and Sand," and now editor-in-chief of First National Pictures in Hollywood, is often inveigled to reveal how she works.

"In adapting a book or play," Miss Mathis reveals, "I read the work several times; get thoroughly saturated with the theme and the author's treatment. Then I examine the various characters and their motives as the author conceived them. Thus I get the story thoroughly in mind."

"The next step is to get the highlights as they have appealed to others. This can best be accomplished by talking with those who have read the book or seen the play."

"For instance, two persons discussing the popular novel will invariably stress some particular incident or scene which lingers

BIRD FANCIERS TO HOLD PICNIC IN COUNTY PARK

Two hundred pigeon owners and their friends from all parts of the Southland will attend a basket picnic and young bird show, which the Southern California Pigeon association, recently formed, will hold in Orange County park July 26. It was estimated to-day by W. A. Proctor, Santa Ana, vice president of the association, that the picnic program, as arranged by Secretary H. O. Keesling, Riverside, provides for an address of welcome by Proctor, at 10 a. m.; meetings of utility, flying and fancy pigeon owners from 10:15 to 11:15 a. m.; lunch and music at 12 m.; judging of birds at 2 p. m.; and distribution of awards at 3:15.

Approximately 200 birds will be exhibited at the show. Arrangements already have been made for the coops, which will be loaned by the farm bureau. The association was formed at a meeting held in Rosemead recently. It is the aim of the organization to bring the utility, flying and fancy pigeon owners closer together for their mutual benefit.

Three Santa Ana men are officials of the association. They are Proctor, S. J. Mustel, director of the utility division, and A. C. Wiebe, director of the fancy division.

Officer Hurt In Crash With Auto

Motorcycle Officer E. R. Rudy, of Fullerton, was seriously injured this afternoon when his motorcycle collided with an automobile, said to have been driven by W. M. Hoffman, Fullerton rancher. The accident occurred as Rudy was chasing a speeder, the injured man reported to Chief of Police Wilson. Rudy was treated for fractured ribs and body bruises in the Fullerton hospital and later was removed to his home.

A few weeks ago, Motorcycle Douglas Chambers was injured in an accident somewhat similar to that in which Rudy was hurt. As the result of the injury, Rudy, Fullerton has no motorcycle police on duty. Chief of Police Wilson said he took care of by patrolmen operating in automobiles.

Will Hold Texas Picnic In Park

Orange county Texans are invited to attend a state basket picnic to be held tomorrow, starting at 12 o'clock, noon, in Orange County park. Arrangements for the outing, which are in charge of J. W. Shields, D. C. Chapman and Mrs. Jack Olivari, will include a sports program and addresses.

English Rubber In Another Rise

LONDON, July 18.—Continuing its constant record-breaking upward flight, rubber today reached still another high peak when it was quoted at four shillings, five and a half pence a pound. Meanwhile, rubber manufacturers began protesting against artificial limitation of supply, which is deemed responsible for the present jumps in price.

'Light' Mystery, Left In 'Dark,' Finally Solved

You've all heard of "dark mysteries." This is all about a "light" variety. Last May, a group of Orange county farmers, headed by S. W. Stanley, Tustin, president of the farm bureau, visited the Perry building one night while in the north for the purpose of viewing the big relief map there. Greatly to their disappointment, the map was dark and they as they would, no one could tell them why.

A letter explaining the "mystery" was received here today from R. N. Wilson, director of the agricultural department of the California Development association. It seems that Orange county has not paid its share of the light expense and for that reason, the map must be kept dark part of the time. It so happened that the Orange county men visited the Perry building on one of the "dark" nights.

WOMAN EXPERT WILL LECTURE IN Y. CLASSES

J. P. Baumgartner, chairman of the Y. M. C. A. educational committee, announced today that Mrs. Jean Morris Ellis, a widely known specialist in applied psychology and vocational guidance, has been engaged for a series of lectures and interviews at the Y. M. C. A., beginning on Monday, August 17, and continuing for two weeks or more.

Mrs. Ellis has been for many years conducting work of this sort in connection with the Y. M. C. A. in various cities. She is said to be a thoroughly trained teacher of psychology, particularly as it is related to occupational counsel, and she has a record of exceptionally fine service in helping young people to "find themselves." Her specialty is in the line of personal interviews, in which she attempts to give individual advice and direction, based on the characteristics of the person spoken to.

The work in Santa Ana will be conducted as a series of public lectures on popular and inspirational themes of mental training, together with a limited number of personal interviews which will be arranged for those desiring individual advice.

While many people are out of the city on account of the vacation season, the leaders in the Y. M. C. A. educational work believe that there are enough left in town to make the work of Mrs. Ellis decidedly worth while. She will arrive in the city on August 17, and will deliver her first popular lecture at the Y. M. C. A. on that evening, following which there will be a regular course of instruction offered for those who desire to undertake it.

Full details as to this work may be secured from Secretary Ralph C. Smedley, at the association building.

GETTY IS CHOICE FOR LEGION BOARD

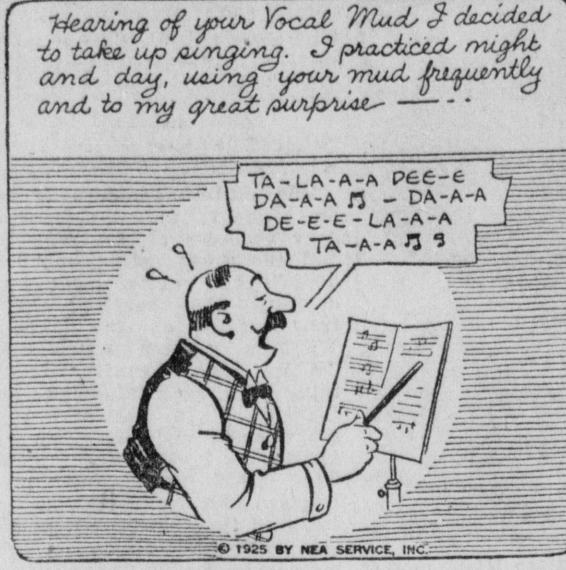

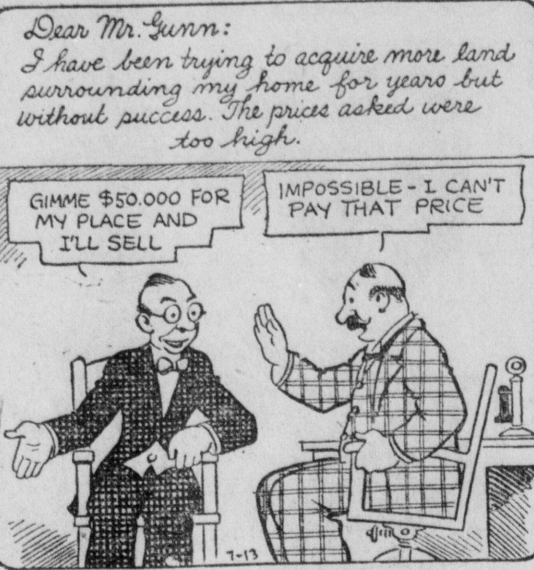

Wilbur Getty, commander of the Santa Ana post of the American Legion, was the unanimous choice of Orange County Legion post delegates, meeting in Orange last night, to succeed Judge E. J. Marks, of Fullerton, as a member of the California American Legion executive board.

Judge Marks resigned the position when he was appointed to the bench of Department 3 of the superior court by Governor Richardson, to succeed Judge Frank Drumm, resigned.

The district of which Orange is a part, includes Inyo, Riverside, San Bernardino, Imperial and San Diego counties and has two members on the board. The other member is from Imperial county. Support of the other counties will be sought for Getty, the delegates agreed.

NEW AUTO ACT CHANGES WILL BE EFFECTIVE

Provision Is Made For Examination of persons Who Wish to Drive Cars

WILL ONLY AFFECT
NEW APPLICATIONS

Revocation of Licenses Is Made Much Simpler Under Amendment Terms

Next Friday, July 24, is the date when various important changes in the motor vehicle act become effective. These changes have been outlined from time to time by the legal department of the Automobile Club of Southern California, and among those of particular interest are the provisions for examination of persons who apply for licenses to operate motor vehicles.

No person who now holds a valid operator's license will be in any way affected by the change but those who apply after next Friday may have to pass an examination and demonstrate their ability to exercise ordinary care in the operation of a motor vehicle.

Drivers Must Be Fit
Persons who have had experience as motor vehicle operators should have no trouble in getting a license provided they are mentally and physically fit, but persons who have never before operated a motor vehicle can only get a temporary permit, good for 30 days, during which time they must carry the permit with them while operating a motor vehicle and must at all times be accompanied by an experienced driver.

Revocation Made Simpler
When the division of motor vehicles is supplied with a verified complaint stating that a person has driven a motor vehicle in a reckless or negligent manner and has thereby caused death or injury to some person or serious damage to property, then the division of

WHOS WHO in MOTORDOM

JOHN MARTIN

The highflyer in the above sketch is none other than Johnny Martin, popular young salesman for the Santa Ana Star Motor Sales company, dealers in Durant products for southern Orange county.

Johnny is one of the star salesmen for Star cars and his other foremost claim to fame is the fact that he is one of the classiest aviators in the Southland.

He is the brother of Eddie Martin, owner of the aero field at the end of South Main street, and is interested with him in the business of taking up passengers and teaching the more courageous how to fly.

So the reader can readily see that Johnny has his head constantly among the stars and above the clouds. He has made a good record as a rapid fire automobile salesman and has a great many sales to his credit.

He has countless warm friends in Orange county bowing to his affable and genial temperament.

Each car must be sold for just what it is.

SURPRISES ARE PROMISED WITH NEW OAKLANDS

Price Reductions Are Indicated by Local Dealer; Will Exhibit Models

Shrouding in the deepest mystery details as to just what the product is, Otto Haan, president and manager of the Cadillac Garage company, local dealer for the Oakland, today announced that on Saturday next he would exhibit at his showrooms, corner Main and Second streets, models of the new line of sixes the Oakland Motor Car company has developed.

Revision of prices downward also is indicated, the agent intimating that the new quotations would be from \$70 to \$350 lower.

Beyond stating that the new line would feature smart new bodies by Fisher, and that mechanical refinements have been added, including the harmonic balancer, an exclusive engineering development, the agent pleaded ignorance in the matter of knowledge of just what the new cars will be like.

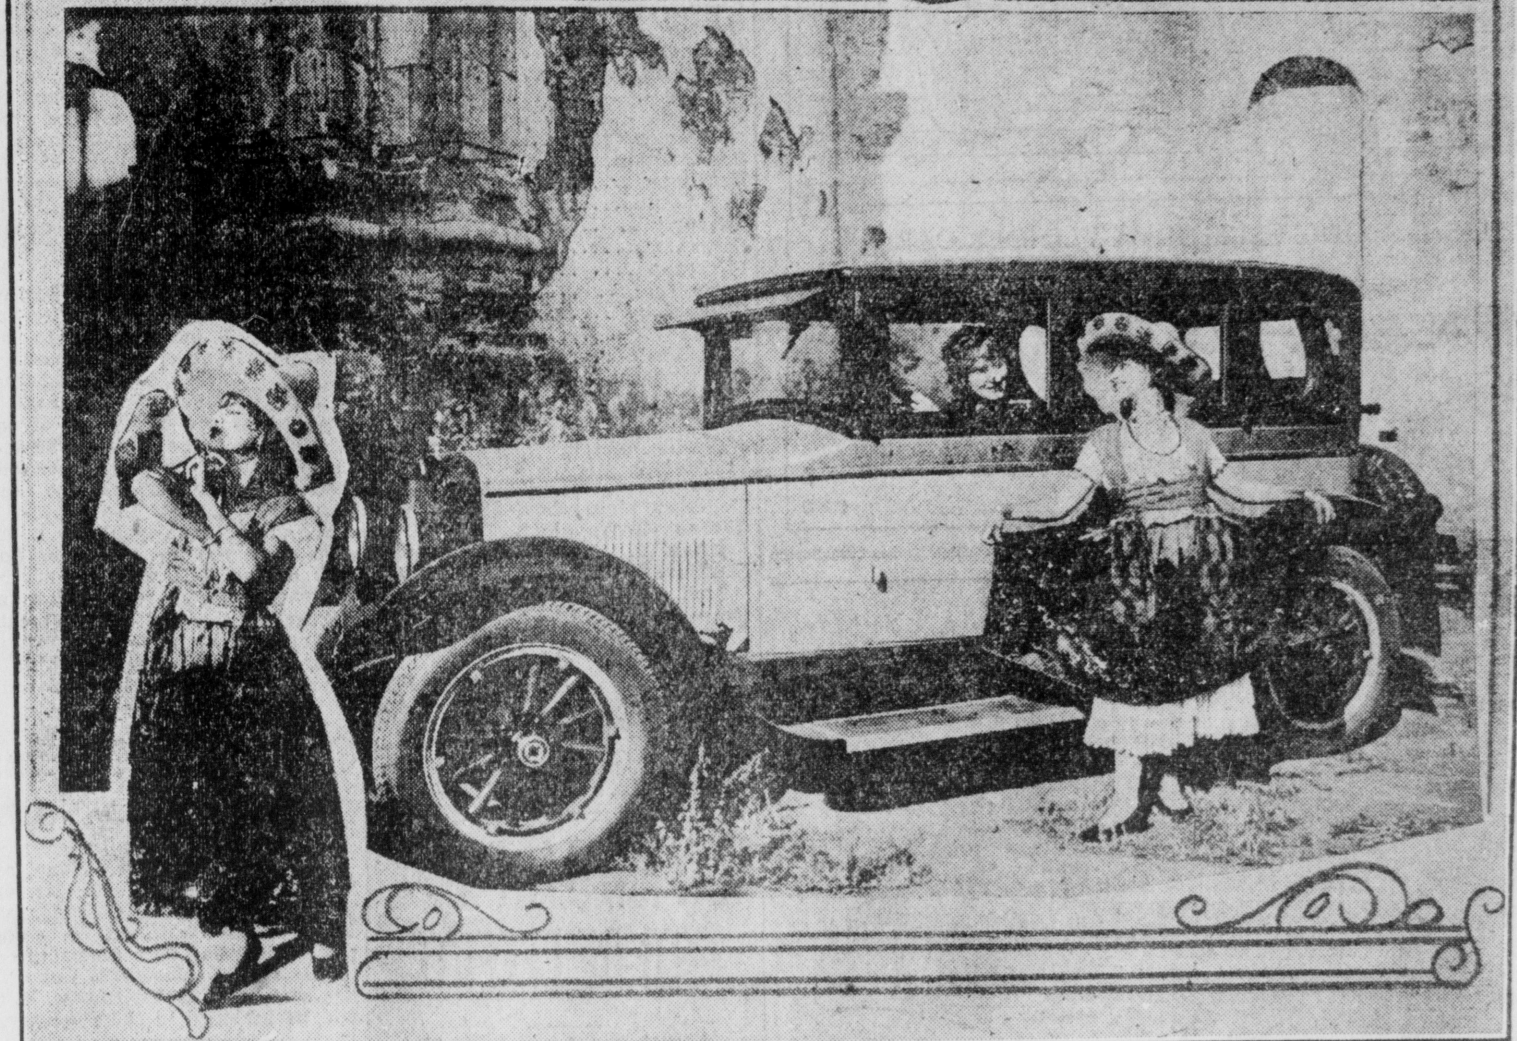

"All I know is that the company is to announce a new car, but just to what extent it is to be new I have not yet been informed," Haan said.

"The General Motors research laboratory has been developing some new features and some of these are incorporated in the new Oakland. Those who have seen these features in use state that they will almost revolutionize the construction of economical high powered small motors. The outstanding feature in the Oakland is to be the Harmonic Balancer which completely eliminates all motor vibration. As in previous years the Oakland sets the pace by being the first car to include this advanced development as part of standard production."

"We are also informed that Fisher has created some new and beautiful bodies to harmonize with the superior quality of this new creation. The finish is to be attractive and different from any Oakland car so far produced."

Hear Dr. Frank W. Luce, Preacher, Lecturer and Author, First Methodist Church, Sixth & Spurgeon. Morning subject: "Dry Bones and Living Men." Evening subject: "Three Young Men in a Wicked City."

MODERN CAR IS SHOWN IN HISTORIC SETTING

A section of the altar of the old church at Capistrano Mission was used in this picture to link up present day transportation and action with the historic past. Many persons were killed in the old church when the building crumbled in the 1812 earthquake that wrecked the mission. The automobile is a Rickenbacker brougham, am, furnished by Hall Motors, local distributor. In the upper picture, Martita Austin, charming dancer assisting in the "San Juan Capistrano Mission Pageant" is cooing to a Polly, and depicting a scene that is common to Mexico. Mrs. J. M. Hall, wife of proprietor of Hall Motors, is an interested spectator. In the lower picture, Martita is presenting one of the graceful poses she assumes in her dances.

DRIVERS WITH ONE HAND ARE TRAFFIC PERIL, SAYS MORRISON

Justice of Peace for S. A. Expresses Views on Different Road Problems

FAVORS CONTROL BY
STATE OF HIGHWAYS

Believes License Revocation Would Act as Curb On Reckless Drivers

One-arm drivers are a menace to traffic on the highway, whether the driver has one arm by reason of a misfortune or whether by pleasure derived in employment of one arm in circling the waist of a fair dame, in the opinion of Kenneth E. Morrison, justice of the peace for Santa Ana township.

The justice gave voice to this thought in an address delivered at this week's meeting of the Orange County Auto Trades association, held at Elks club.

The jurist also expressed the belief that reckless driving could be curbed by adoption by the legislature of a regulation requiring the reissuance of an operator's license showing conviction after a man has been arrested and convicted on a charge of violation of traffic laws. He advocated permanent revocation of the license of a man or woman who has been convicted four or five times on charges of traffic law violations.

Favors State Control
Patrol of the highways—city, county and state—should be under control of the state, the jurist declared, and he made his point by saying that there are too many instances in which motorcycle officers of a community give more consideration to making sufficient arrests to justify their salaries than to real cause for arrest of an accused motorist.

"Execution of motor laws should be left to men in the employ of the state, with men who are qualified constituting the staff of officers," Morrison said. "In this way the influence of local politics would be eliminated and there would be better patrol of the highways."

Intimating that he had been threatened by withdrawal of political support if he did such and such a thing with men who had been arrested in Orange county for traffic violations, Morrison said that he would do his duty as he saw it, regardless of the influence or social position of a man brought into his court on a traffic violation charge.

Touching upon automobile accidents in Orange county, Morrison said that the records of Coroner C. D. Brown revealed that 73 people were killed in Orange county in 1923, 49 by autos and 24 by other means.

Comparing records of the first six months of 1924 and the same period for 1925, the justice said that 20 persons were killed by automobile accidents in the first half of 1924 and 15 in the first half of 1925. He made no attempt to explain why accidental deaths were less this year than last.

Scores Child Neglect
He criticized severely the practice of children playing ball or

LOOK for THIS PLEDGE

Pledge to the Public On Used Car Sales

1 All used cars offered to the public shall be honestly represented.

If a car is suitable only for a mechanic who can rebuild it, or for some one who expects only a few months' rough usage on a camping trip, it must be sold on that basis. Each car must be sold for just what it is.

2 All Studebaker automobiles which are sold as CERTIFIED CARS have been properly reconditioned, and carry a 30-day guarantee for replacement of defective parts and free service on adjustments.

This is possible because tremendous reserve mileage has been built into every Studebaker, which it is impossible to exhaust in years.

3 Every used car is conspicuously marked with its price in plain figures, and that price, just as the price of our new cars, is rigidly maintained.

The public can deal in confidence and safety only with the dealer whose policy is "one price only—the same price to all." For, to sell cars on this basis, every one of them must be honestly priced to begin with.

4 Every purchaser of a used car may drive it for five days, and then, if not satisfied for any reason, turn it back and apply the money paid as a credit on the purchase of any other car in stock—new or used.

It is common, of course, that the car has not been smashed up by collision or other accident in the meantime.

Not only to the public, but also to The Studebaker Corporation of America, whose cars we sell, we pledge adherence to the above policy in selling used cars.

Fifth and Spurgeon, Santa Ana

New Coach-Brougham Type Proves Popular; 7 Are Sold Here

With the sale of sixteen Rickenbackers, seven of them coach-broughams, in the past month, business with Hall Motors, local distributor for the Rickenbacker, is brisk, according to J. M. Hall, proprietor of Hall Motors.

The sales record includes deliveries made throughout the county and one or two deliveries in Los Angeles, among those in Santa Ana acquiring coach-broughams being J. M. Houston, G. A. Anderson, Dr. Frank Ashmore, L. H. Charbonneau and Elizabeth Rocke Rates. Dr. Frank Ashmore also purchased a coupe at the same time he negotiated for the brougham. The sale of a straight eight sedan to Willis Hickman was included in the month's business, Hall said.

"In introducing the four-door coach brougham, the Rickenbacker Motor company has effected an innovation that has set a pace for the entire motor industry," Hall said. "In the coach-brougham has been incorporated all the convenience of a four-door enclosed model at a price formerly charged for an open touring model, the delivery price here being \$1870."

"As an expedient, the two-door coach has served its purpose. Owners will not tolerate the inconvenience of the jump seat. Rickenbacker saw this and led the way by designing the coach-brougham. It is mounted on the refined six chassis, with larger motor, and all the other Rickenbacker features. This model challenges the admiration and the demand has been overwhelming. It is an achievement in coach craft—art combined with science."

"With tandem fly wheels, double depth frame, cradle springs, air cleaner, dilution eliminator, ball bearing steering, balloon tires and four wheel brakes, the coach-brougham is the most advanced car of its time, both as to chassis and body. It is a rare example of harmonious contrasts—each thing seems to complement each curve."

"Keys Fitted and Locks Repaired. HAWLEY'S, OPP. POST OFFICE."

STRESSES SPECIAL CHRYSLER FEATURES

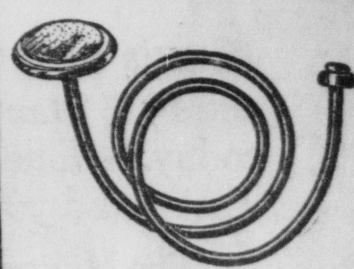

Tests of the Chrysler four-cylinder engine represents a very close approach to the ideal in smoothness and development of power, according to engineers of the Chrysler Motor corporation. These tests of the recently developed car indicate an almost total absence of vibration and also the absence of other physical forces tending to retard full power development," it is pointed out.

"In the first contact with the Chrysler four engine, one simply forgets all previous four-cylinder experiences," states Paul Clark, manager of Hancock Motors Co., Chrysler dealers. "It is totally different from the previous conception of four-cylinder engines. The heavy, balanced crankshaft, large bearings, light pistons and connecting rods are some of the engineering refinements that make the Chrysler four develop its great power more smoothly and easily."

"The power curve of the car, as charted by the engineers, shows a steady increase of power from the point where the engine is scarcely turning over up to 2000 revolutions per minute when speed is in excess of 40 miles per hour. Although the engine from bore and stroke figures rated only twenty-one horse-power, its actual brake horse-power developed is 33 per cent greater, or 38½ horse-power."

Haley Is Sp... Holiday on

O. A. Haley, Dodge distributor for Orange county, is enjoying a vacation at a ranch near St. Helens. The automobile good ranch property particular interest to this time because of stags and hunting wiles.

Klenzo Bath Sprays for Shampooing

are a great convenience. They make it easy to wash away all the lather from the hair and scalp. These sprays are made of best quality red rubber tubing.

Large tubing, extra large, nickel-finished spray head and patented faucet connection which fits any faucet.

With this spray anyone may also enjoy a daily shower bath.

COUNTY SCHOOL ENROLLMENT IN SMALL GROWTH

Total enrollment of students, as based on average attendance, in the various schools of the county for the school year ended June 30, aggregated 15,540, compared with 15,516 for the school year of 1923-24, according to figures contained in the annual report prepared by R. P. Mitchell, county superintendent of schools. Of the total gain of 24 pupils, 17 are accredited to elementary grades, and seven to senior high school and junior college grades.

Total attendance in elementary schools for 1924-25 was registered at 14,388, compared with 14,371 during the preceding year. High school and junior college attendance was reported at 4152 for the school year just brought to a close, compared with 4145 for the preceding year.

Comparative figures, showing attendance for each district, follow:

NEW AUTO ACT IS TO BE EFFECTIVE

(Continued From Page 9)

motor vehicles may hold a hearing. If the findings justify it, the license of such an operator may be revoked or suspended.

No one under the age of 14 years may be licensed. A chauffeur must be at least 18 years of age, and also one who is to drive a motor vehicle while it is in use as a school bus.

The date of expiration of the registration year has been advanced to midnight of December 31. Application for renewal of registration will be made next year upon the white certificate or certificate of registration. The certificate of ownership will be good until a change in legal ownership occurs.

Change Classification
The law provides that no vehicle other than a truck, trailer or semi-trailer shall be considered a commercial vehicle, or the owner thereof, required to pay the weight fees where such a vehicle is used only occasionally or incidentally for the transportation of property. It says that the mere fact that the vehicle is equipped with a box or other receptacle for carrying personal property incidentally or occasionally is not alone sufficient to justify the classification of such vehicle as a commercial vehicle.

The law will permit the use of headlights, the current for which is derived from a magneto without the use of a battery, until Sept. 1, 1927, on those cars which were manufactured before 1920, provided the headlights are equipped with lens, reflectors or headlight control devices as are required in the act.

Change Right-of-Way Rule
As explained last week the right-of-way rule has been changed and reads as follows: "When two vehicles approach an intersection of public highways at approximately the same time, the vehicle approaching from the right shall have the right-of-way, provided such vehicle is traveling at a lawful rate of speed."

Inasmuch as the legislature has provided that failure to yield the right-of-way to a vehicle entitled to it is a misdemeanor, it becomes important to understand just what the rule means.

Rule Is Explained
Collisions occur, of course, at the place where the paths of vehicles cross. Since the object of the rule is to avoid collisions, the rule should be applied at the place where the collisions occur and any doubt should be resolved in favor of the vehicle on the right.

Refrigerators at a discount. Crescent Hdw. Co., 108 East 4th St.

Coast, Coast Run Is Planned With Wills Claire Six

A transcontinental run of unusual interest is planned by L. B. Miller, manager of the Victory X-Ray corporation, according to word received by H. A. Shugart and Son, local auto dealers. Miller was one of the original backers of the Lincoln highway, from ocean to ocean, and his trip will be made to demonstrate the feasibility of overland travel. The trip will be made to the Pacific coast, where the great national highway has been nearly linked up. Miller intends to drive his own Wills Claire Six the entire distance himself, unassisted by relief operators or any professional racing organization. The distance is 3156 miles.

DRIVERS WITH ONE HAND ARE TRAFFIC PERIL

(Continued From Page 9)

other games in the street, and pointed out the danger to which the children are exposed.

Safety, he said, is more or less a matter of education involving the points of proper action in an emergency, rules of the road and sane conduct.

"It would be a good idea to teach safety in the public schools," Morrison said. "It is easy to impress on the minds of the children the various things that tend to safety. Under such a course, eventually there would be better and safer drivers."

Cities Cutting in Peril

"Cutting in" was responsible for four deaths in the county in 1923, the jurist asserted, in pointing out that few persons fully understand what constitutes "cutting in." He emphasized the point that "cutting in" is not the mere matter of dropping into a "hole" in a line of traffic.

An operator is guilty of cutting in when he pulls over to the left of the center of the highway and fails to get back in line on the proper side of the road before an approaching car is within 300 feet.

In concluding his address, the jurist said that "safety is like success in business—it depends on the person."

"You will admit that to succeed a person must put his own power behind a proposition and not depend on another to hold him up forever," continued the jurist. "So to secure safety, it will be necessary to get each individual to see the value of safety and not to be like the business man—that is when a business man sees an opportunity he jumps immediately, but in driving an automobile when you see a hole ahead of you in the line, don't tear out as if it were a long lost opportunity and run a few machines off the highway and cause an uproar in general. That is where a person should think of others and not of himself only."

AUTHORIZE TEST AIR MAIL FLIGHT

WASHINGTON, July 18.—Flight of six army planes to test the military feasibility of the air mail routes from Chicago to San Francisco has been authorized by the war department. The machines will leave Selfridge field, Mount Clemens, Mich., about July 20 for Chicago and the western hop. Among the scheduled stops are Iowa City, Omaha, North Platte, Cheyenne, Rock Springs, Salt Lake City, Reno and San Francisco.

The pilots will report on the service facilities found at the mail flying stations and the feasibility of the mail night flying installations for military use.

This would mean replacement of some 24,000,000 square yards of cotton fabric annually, the amount used up in the construction of tires.

DETROIT, July 18.—Henry Ford may benefit the automobile world in another way.

His engineers are experimenting on the use of flax for tires, instead of cotton.

CAMPBULLOLOGY

Prepared by "Outdoor Franklin"
for the Western Auto Supply Co.

Packing Your Car for the Trip

What to take—how to take it and where to carry it are three of the biggest problems that confront the motor camper. "Outdoor" Franklin, in the accompanying article offers a few suggestions for loading the car to the best advantage.

The problem of carrying the equipment is one that every camper must work out for himself as there is no one set of rules that

can be applied to all motor camping trips. If two campers have the entire touring car to themselves, the problem is very simple—pack it all in the tonneau. This applies as well to the motor camper with the roadster or coupe—store it all in the rear compartment.

But all of us do not drive roadsters, neither are we all lucky enough to have an entire tonneau of the touring car for baggage and camping goods, so other places must be found to carry the equipment.

The transportation problem should be taken into consideration when the equipment is being purchased or assembled. It must be compact enough to fit in a small space and light enough to keep from over-loading the car. That is why the household articles and furnishings cannot be used to advantage on the camping trip, but does not mean that convenience must be sacrificed for the same comfort giving equipment used at home may be had in portable form, for the camp. Porcelain dishes used in the house would not fit in with the camping scheme, neither would the bulky pots and pans answer the camping needs. The average bedding roll would be much too large to allow ease in handling, so the tourist must provide compact equipment built especially for camping.

The logical place to carry the bulk of the equipment is on the running boards and rear trunk rack. These three places provide enough space so that little equipment is left to be crowded into the tonneau.

When most of the apparatus is carried on the running boards, it will necessarily mean that the doors of the car will be blocked. On this side, as shown in the illustration, the tent, bed and mattresses may be carried by means of the carry-all luggage carrier.

On the same running board the emergency service unit may be fastened. This consists of a kit containing three canteens, one for gas, one for oil and one for water.

A combined bumper and trunk rack will accommodate a good share of the outfit. A large box or trunk, bolted to this contrivance, will hold the blankets, pillows, clothing and all like articles that must be kept out of the dust and dirt.

The other running board will bear the heavier equipment and still leave room for the doors to open above it. Here may be fastened the gasoline stove, folding table, chairs, dishes, aluminum set and box for groceries and supplies.

If a large amount of bulky bedding is to be carried, it is well to leave the back cushion at home and substitute the bedding in its place. Not only does this make a desirable seat but much additional rigging can be carried beneath it.

Many of the camping articles can be picked out to fit under the two seats. The folding bucket and basin, camp axe and shovel and even blankets can be carried there.

To insure cleanliness, the runningboard outfit should be covered with a heavy piece of khaki. The tent usually comes encased in a heavy bag, and the bed may be carried in its original carton. The poncho mattress is fitted with

a pantasote covering that tucks in at the ends to render it dust-proof. To get the best service from all of your equipment keep it covered, clean and away from the dust and rain as much as possible.

JAZZ AROUSES TOKIO
TOKIO—American jazz dances have aroused the Tokio police. These dances now are barred in all except licensed dance halls, and in the latter none of the American steps are allowed after 10 o'clock. The police claimed the dances tended to be immoral.

"Beautiful"

Announcing the New 4-Door Coach-Brougham

Beautiful—is the word which will come spontaneously to your lips when first you gaze upon this new Coach-Brougham now announced and ready for delivery.

Rickenbacker was (and still is) first to offer a 4-door Coach-Brougham.

This model has been a tremendous success. Its beauty appeals to everyone.

Demand has been overwhelming.

Fundamentally this Rickenbacker idea was right—unanimous acclaim proved that.

Now comes the new model, which in all respects is the same—but refined, perfected.

Here is a Coach-Brougham which is truly beautiful and ultra-luxurious in every respect.

Here is a triumph in fine body design.

Here is beauty of line—the effect of a custom-built body at a price made possible only by volume production.

Here is an achievement in coach craft—here is art combined with science.

Here is luxury at an amazingly low price.

Mounted on that identical "Six" chassis with which "Cannon Ball" Baker has made so many trans-continental and cross-country records during the past six months, this new Rickenbacker is amazing in performance.

And now, it is as beautiful to look upon as it is wonderful in action.

Possesses all the Rickenbacker features, of course—those features which the Rickenbacker incorporates today, which are two years at least in advance.

Tandem fly wheels; double depth frame; "cradle springs"; air cleaner; dilution eliminator; ball bearing steering; balloon tires and 4-wheel brakes.

Here is the most advanced car of its time—both as to chassis and body.

See this new 4-door Coach-Brougham.

It's a rare example of harmonious contrasts—each line seems to complement each curve.

"Beautiful!"—the one word expresses it all.

Drive this Rickenbacker yourself—it will be a revelation to you.

NEW RECORD IS ESTABLISHED IN PRICE OF LIMAS

Final checks just received by lima bean growers of the county have established a new record price of \$12.64 a sack for the limas and \$10.96 a sack for baby limas, according to announcement today by W. C. Jerome, president of the San Joaquin Bean Growers association. This year's record consists, in particular, of the fact that 60 per cent of the consumer's dollar has come back to the grower. The price received by the grower, in other words, is 60 per cent of the price paid for lima beans by the consumer, according to Jerome. No other commodity can show such a return in this respect, it is said. Jerome holds this record up as a tribute to the marketing organization of the bean growers. Beans and walnuts, Jerome states, claim the largest percentage of the consumer's dollar, with walnuts usually leading slightly, but this year the beans have surpassed everything, he says.

BOWLES MOTOR FIRM ACQUIRES USED CAR MART

Inauguration of a new policy in the selling of used cars is announced by the Bowles Motor company, which has just taken over the Certified Used Car market at 511 North Broadway and will operate it as an auxiliary to its Studebaker service in Santa Ana. W. E. Patterson will continue in charge of the market, it is intimated. All Studebakers automobiles, which are sold as certified cars, will carry a 30-day guarantee, states Potter Bowles, of the Bowles company, for the replacement of defective parts and free service on adjustments. They will be properly reconditioned before being placed on sale. Another attractive feature of the new policy is the extension of the privilege of driving a used car for five days and then turning it in again if not satisfied, the initial payment to be applied on another machine, new or used. A pledge covering these points, as well as others, has been outlined by the Bowles Motor company and a copy hangs in the showroom as a guarantee of protection for all purchasers.

Honest representation is the slogan that has been adopted in accordance with the new used car sales plan. If a machine needs a considerable amount of overhauling and repairing, the prospective purchaser will be clearly told so, the announcement states, but certified cars will carry a 30-day guarantee.

HUP SALES HIT NEW HIGH MARK IN JUNE

June was the largest month in the entire history of the Hup Motor Car corporation in sales volume in dollars, and the second largest in number of cars manufactured, the company announces. Jack Robertson, local manager of the Moulton Motors company, has been informed.

Continued large growth in demand for the Hupmobile Eight, the largest seller among all cars of its type, particularly contributed to this record, says O. C. Hutchinson, general sales manager for the Hup company. "Records of its performance in the hands of owners are beginning even to surpass our statements regarding its abilities and its super-smoothness," he added. "Before the end of August we shall have shipped more than 10,000 Eights. That is a remarkable record for a car of its luxuriousness—doubly remarkable when one considers that it was made with a brand new car and a type even now just coming into general use by those who can afford the utmost in smoothness of operation."

"This Eight, which so pleased the public that within five months it became the largest selling car of its type in the world, is now rapidly approaching a point where its sales records are challenging those of all other eight in line cars put together."

In making this record, Hupmobile reports that June shipments of eight cylinder cars increased 77 per cent over those for May. Despite this great gain it carried over unfilled orders June 30 for more than \$700,000 in eight cylinder cars and nearly \$2,000,000 in fours, and on one day, July 1, received additional orders amounting to more than \$1,000,000 for eights alone. Total shipments for June, 1925, exceeded those of May by 61 per cent, of June, 1924, by 92 per cent, and of June, 1923, by 36 per cent.

MAKE REPAIRS TO ARCTIC FLAGSHIP

ABOARD FLAGSHIP BOWDOIN OF THE MACMILLAN POLAR EXPEDITION, HOPKINS, Labrador, July 15—(Delayed)—(By Radio to National Geographic Society)—The MacMillan polar party has been able to remove the broken propeller of the flagship Bowdoin by putting empty casks under the stern and unloading barrels of gasoline which were stored aboard the ship. Work of installing a new propeller will be undertaken tomorrow and Captain MacMillan expects to leave here for Greenland tomorrow afternoon.

Award Contract For Widening of Coast Boulevard

The California Highway commission has awarded a contract for the widening and thickening of 13.1 miles of pavement between Oceanside and San Onofre, on the Orange county line, to Jahn and Bressi, of Los Angeles, according to word received today by the Register.

The firm's bid was \$322,757, a sum \$38,657 less than the engineer's estimate for the work. The operations will be financed with funds derived from the state gasoline tax.

A contract has been awarded for grading and rock surfacing an 8.6 mile section between El Centro and Holtville.

AUTO FINANCE CONCERN OPENS BRANCH IN S. A.

The Pacific Finance corporation, one of the largest finance companies confining their operations to the Pacific coast, has opened a branch office at 212 West Fifth street, Santa Ana.

The purpose of the local office will be to handle the accounts of auto dealers in Orange county who desire the aid of the company in financing automobile sales, according to E. A. Mitchell, manager of the branch here. The firm will maintain a service department in order to co-operate with the automobile men in their transactions. The company was organized five years ago with a capital of \$300,000 and has grown until the present capital investment is over \$6,000,000. Mitchell was formerly with the Second National Securities company of Los Angeles, and is well known in the vicinity of Orange county. He has had experience in auto sales, as well as finance, and his services will undoubtedly prove beneficial to the many automobile dealers of Orange county.

The executive offices of the company are located in its own building at Sixth and Olive streets, Los Angeles, and other branch offices are now established in San Francisco, San Diego, Long Beach, Fresno, Bakersfield, Sacramento, El Centro, and Portland, Ore.

OLDSMOBILE, HUP IN NEW LOCATION

Headquarters for the Oldsmobile and Hupmobile automobiles have been established at 508 North Broadway by W. G. McConnell of the Frahm-Oldsmobile company, and the Moulton company, respective agents. The J. C. Mabree Motor company, which formerly had the premises, has moved to the corner of Sixth street and Broadway. Commenting on the new location today, McConnell said that the increasing number of Oldsmobile and Hupmobile users in this district and Orange county had prompted them in making the transfer.

"We will now be able," he said, "to offer our patrons first class service and we will have available a complete plant for handling all kinds of repairs and overhauling."

ACQUIRE NEW HOME FOR PAIGE, JEWETT

The J. C. Mabree Motor company, handling the Paige and Jewett automobiles, now is established in new quarters at Broadway and Sixth street, in the premises formerly occupied by the Killen-Miles Motor company. The salesrooms and garage of the Mabree concern at 508 North Broadway have been taken over by the Frahm-Oldsmobile company and the Moulton company, handling the Hupmobile.

Discussing the transfer today, Jack Mabree, head of the Mabree company, expressed the opinion that he now has one of the most favorable, convenient and most favorable locations in Santa Ana, and one of the best equipped shops in the county.

"With the facilities we now have available," Mabree commented, "we feel confident we can offer our patrons the very best of service. We have a complete plant for handling all kinds of work and our equipment is up-to-date in every respect."

RAILWAY POSTERS WARN MOTORISTS

During the last few weeks, the safety department of the Santa Fe Railway company has sent out new posters to be posted along railway crossings and elsewhere, and which it is hoped may teach a lesson that will have the effect of reducing the number of accidents at such points. In sending out these posters, the railway calls attention to these facts which tell a story that is quite startling: Seventy per cent of all crossing accidents occur in daylight. Sixty-three per cent of all crossing accidents occur in the open country where there is no obstruction to the view. A large majority of all crossing

accidents occurs at crossings with which the driver is entirely familiar, usually in the locality where he or she resides. Fourteen per cent of all crossing accidents (one out of every seven) results from drivers running into the side of moving trains. While about 25 per cent of drivers are careless, only about five per cent are grossly negligent, yet with 18 million automobiles in the United States, this represents 900,000 reckless motorists. These include many whose eyesight and hearing are impaired, children who are not old enough to understand the operation of the car, men of such advanced age that they are not capable of operating the car safely, and also a large number who drive cars while in an intoxicated condition. All crossings are not protected and those that are have various types of protection, such as ground flagman, gateman and electric flashlight and audible signals. All

WEE AUTOMOBILE GAINS PUBLICITY FOR SANTA ANA OFFICE OF FINANCE CONCERN

Here is the tiny automobile which the Blodgett Finance company recently brought to Santa Ana for advertising purposes. Sitting at the wheel is S. Brunner, manager of the local company. Yes, it really runs.

Six-foot Motor Car Effectively Used to Attract Public Attention

The Blodgett Finance company, specializing in individual automobile loans and re-financing, has selected Santa Ana as the location for its Orange county office. Location has been secured at 614 1/2 North Main, with S. Brunner in charge. The head of the Blodgett firm is J. F. Blodgett, who is also president of the Southwestern Automobile Insurance company, of Los Angeles. The finance firm has been engaged in business in Los Angeles for the last 10 years. As a means of calling attention to the company, a tiny automobile, six feet in length and powered by a motorcycle engine, has been brought to Santa Ana. Its exterior is of brilliant hue. It has wire wheels and pneumatic tires. Only the "stirring" wheel and the driver appear to be of normal size. "We feel confident that there is a field here for a company such as ours," said Brunner today. "The firm has a capital of 4,000,000 and resources of \$6,000,000."

Herbert Rankin, secretary and treasurer of Rankin's, has departed on his annual outing in the Sierras, with the Sierra club. He will be absent about a week.

Notice
To my friends and patrons—As I will be in the east on my vacation during July and August, Mrs. Frances Moorhouse will have charge of my insurance business at my office, 806 East 4th Street. Phone 633J.
GRACE M. GRIGSBY.

ORANGE COUNTY NUT CROP LEADS STATE IN 1924

Orange county, with a total production of 6114.11 tons, led the state in walnut production last year, according to figures given out today by Carlyle Thorpe, general manager of the California Walnut Growers association. Los Angeles county, with 5922.55 tons, was second, and Ventura county, with 4695.06 tons, was third. The crop last year, totaling 21,405 tons, was valued at approximately \$12,000,000. This year's crop, which is estimated at 29,250 tons, or an increase of 37 per cent over the 1924 figure, will bring between \$14,000,000 and \$18,000,000, it is believed. According to information given Thorpe, the crop of merchantable unshelled walnuts for the state for this year will break all previous records. This information was secured from estimates submitted by 800 members of the association. The trees appear to be more healthy and vigorous at this time than at any previous period, Thorpe states. Size of the nuts is up to normal and the harvest should be a week or 10 days earlier than it was last season, he says. It is probable that Los Angeles county will exceed Orange county this year in walnut production, reports secured by the association indicate. Los Angeles county will have approximately 8277 tons and Orange county 5923 tons, it is estimated.

RANKINS RETURN FROM LONG TRIP

Mr. and Mrs. J. H. Rankin have returned from a 2700-mile automobile trip, begun June 6. Mr. Rankin is president and general manager of Rankin's. They traveled the inland route north, visiting various places of interest. In northern California, they were particularly impressed by the pine, hemlock and fir trees. The abundance of wild flowers of northern California and southern Oregon also attracted their attention. The trip ended at Portland, where they witnessed the famous Rose festival. Returning home they spent four days at Shasta. drivers should approach crossings with this knowledge and know that the way is clear before attempting to cross the tracks; also they should know that, where there are two or more tracks, trains are likely to be moving in both directions at the same time.

28.02
Miles Per Gallon

Without "Trick" Driving
Average by TWO
CHRYSLER FOURS
Los Angeles to San Diego and Return

With "Trick" Driving

Here's the Story

Two Chrysler Fours were driven to the Julian Service Station at Eighth and Westlake avenue on July 9, where newspaper men were on hand to watch the tanks drained of all gasoline and refilled by use of a special gallon measure certified correct by the Bureau of Weights and Measures. Julian "Lightning" gas was used. The cars started from Eighth and Westlake, with the newspaper men riding as observers, and went to San Diego. A steady speed, conducive to economy, was set and maintained. There was no trick driving going or coming back. At no time during the run were the motors shut off. There was no speeding up and declutching or other "trick" driving stunts. The newspaper men observed the

driving at all times; watched the gas tanks drained and the gasoline again measured at San Diego and upon the return to Los Angeles. The observers swore before a notary public that, under the driving conditions, the two Chrysler Fours averaged 60.25 Miles Per Gallon.

60.25
Miles Per Gal.

Just to demonstrate how mile per gallon figures can be "padded" by "trick" economy driving, the same drivers and the same cars were sent out on a run from Los Angeles to Hollywood, Glendale and return. Motors were speeded up and then shut off. Drivers took advantage of all inclines to coast with motors dead. The two cars on this run averaged 60.25 miles per gallon of "Lightning" gas.

Legal Notice

NOTICE INVITING BIDS

In pursuance of a Resolution of the
Board of Supervisors of the County of
Orange, State of California, adopted
July 7th, 1925, directing this notice,
NOTICE IS HEREBY GIVEN that said
Board will receive, at its Cham-
bers, in the Court House, at Santa
Ana, in said County, at 10 o'clock, A. M., on
August 4th, 1925, sealed bids or pro-
posals for the erection and construction
of an addition to the Juvenile
Detention Home, on Fruit Street, near
Central Avenue, in the City of Santa
Ana, Orange County, California.
The bids must be addressed to the
Board of Supervisors of Orange County,
California; the work to be
done in accordance with the plans
and specifications adopted by the
Board of Supervisors and filed in the
office of said Board, in the Court
House; each bidder must submit with
his proposal a satisfactory check, cer-
tified by a responsible bank, and pay-
able to the order of the County of
Orange, or a bidder's bond for an
amount not less than five per cent
(5%) of the aggregate sum of the bid,
as a guarantee that the bidder will
enter into the proposed contract if the
same is awarded to him, and in the
event of failure to enter into such
contract, said check or bond shall be-
come the property of the County.
The amount of the bond to be de-
posited to secure the faithful performance
of the contract for said work shall be
twenty-five per cent (25%) of the
contract price thereof, and an addi-
tional bond in an amount equal to
five per cent (5%) of the contract
price for said work shall be given to
secure the payment of claims for any
materials or supplies furnished and the
performance of the work contracted
to be done by the contractor, or any
work or labor of any kind done there-
on, and also will be required to fur-
nish a certificate that he carries com-
pensation insurance covering his em-
ployees upon the work to be done
under the contract which may be en-
tered into between him and the said
County for the building of said addi-
tion to said Juvenile Detention Home.
Copies of plans and specifications
will be furnished intending bidders
upon application to Frederick H. Ely,
Architect, Santa Ana, California. A
deposit of Twenty-five Dollars (\$25.00)
will be required for such copies, said
deposit to be refunded when the plans
and specifications are returned to the
architect at the time stipulated and
in good condition.
The Board of Supervisors reserves
the right to reject any and all bids.
By order of the Board of Super-
visors of the County of Orange, State
of California.
Dated July 7th, 1925. M. BACKS,
County Clerk and ex-Officio clerk
of the Board of Supervisors,
County of Orange, State of Cal-
ifornia.

Waves Surrender Remains of Boy Drowned July 4

The waves, which on July 4, took
the life of Charles Plione, 19, Los
Angeles, as he was swimming in
the channel of Newport Harbor,
Balboa, early today surrendered
their victim, according to a report
received here by Charles D.
Brown, coronor.

A man's body, dressed in a bath-
ing suit and white sweater, was
washed ashore at 7 o'clock this
morning, within a few feet of
where Plione was last seen.

The body was identified by the
father of Plione, who came from
Santa Monica at the request of
Coroner Brown. An inquest was
held in the beach city, the jury re-
turning a verdict of accidental
drowning.

Funeral services will be held in
Santa Monica tomorrow. The body
was taken there shortly before
noon today.

Margaret F. Moriarty, of Belch-
ertown, is the first woman in
Massachusetts to become a jus-
tice of the peace with power to
issue warrants and take bail.

Legal Notice

agreement levied on the 22nd day of
May, 1925, several amounts set
against the names of the respective
shareholders as follows:

Name	Number Shares	Amount
Long Beach		
Consolidated	74	\$300.00
E. B. Robin	8,107	\$1,666.25
Mrs. E. B.		
Robinson	5,133	\$1,594.76

In accordance with law and an order
of the Board of Directors made on
the 22nd day of May, 1925, so many
shares of each parcel of such stock as
may be necessary will be sold at
Room 208 St. Louis Bldg., 42 North
Raymond Avenue, Pasadena, Cal-
ifornia, on the 24th day of July, 1925, at
the hour of 10:00 A. M. of said day,
the delinquent assessment thereon,
together with costs of advertising
and expenses of sale.

C. H. RUNDLE,

PERSONAL NOTES OF TUSTIN PEOPLE

TUSTIN, July 18.—Mrs. P. H.
Ebel was hostess here Thursday
afternoon to the members of the
Presbyterian Missionary society.
Discussion of China was taken up
at the meeting with Mrs. Ebel as
leader. A report of the Presby-
terial in Los Angeles was given by
Mrs. Laura Bears, Mrs. Eva Logan
for devotional services. Refresh-
ments were served.

Those present were Mrs. Eva
Logan, Mrs. M. C. Pollard, Mrs.
John Dryer, Mrs. Anna Wells, Mrs.
F. Frances, Mrs. William Satter-
white, Mrs. Bertha McMillan, Mrs.
C. E. Carswell, Mrs. Laura Bears,
Mrs. H. M. Robertson, Mrs. J. Rob-
ertson, Mrs. V. B. Smith, Mrs. A.
Thornhill, Mrs. B. F. Beswick,
Mrs. C. Denio, Mrs. W. L. Shatto,
Miss MacClinty, Miss Florence
Stone, Mrs. A. D. Turner, Mrs.
Hollis Lindsey and the hostess,
Mrs. Ebel.

Mr. and Mrs. Franklin Grisct and
family left yesterday for a visit
with relatives in Hemet.

Mr. and Mrs. Alton Alderman
and daughter, Ida, left yesterday
for San Diego, where they will
visit friends.

Millard Foster returned yester-
day after spending the week at
Lake Arrowhead.

Mr. and Mrs. Irving Thompson
of this city have just returned
from a trip to Vancouver, B. C.

Mr. and Mrs. M. Herrington, of
Pittsburgh, Penn., are guests at
the home of Mr. and Mrs. C. C.
Lambert of San Juan street, Mrs.
Herrington is a niece of Mrs. Lam-
bert.

Mr. and Mrs. John Dryer spent
Thursday in Los Angeles.

Sherman Stevens is spending
the week fishing in Humboldt
county.

Rev. and Mrs. William Snider
and Mrs. Harry L. Hansen returned
Wednesday evening from a trip to
Santa Cruz, San Francisco and
vicinity.

Jimmie Pickering is spending a
week as the guest of Mr. and Mrs.
J. H. Brown.

Mrs. William Hughes is visiting
her sons Clifford and Harold at
Simi this week.

Mr. and Mrs. S. V. Silver and
children, Mary Jean and William,
left recently for a motor trip
through northern California. They
expect to be gone nearly a month.

Mrs. Della Vinson, of Beaumont
is spending the week with Mrs.
Alice Fewell of this city.

Rev. and Mrs. W. S. McDougall,
Miss Elizabeth McDougall, David
McDougall and Miss Agnes Mc-
Dougall left Wednesday for an
extended vacation trip to Lake
Tahoe and vicinity.

Mrs. S. E. Tingley, who has
been ill for the past several days,
is now on the road to recovery.

Mrs. C. P. Marshall, who has
been ill, is recovering.

Members of the Y. P. E. Club en-
joyed a plunge party at Anaheim
one afternoon this week. They
were chaperoned by Mrs. Jesse
Parks. Among those who enjoyed
the party were, Zelpha and Frances
Parks, Lorene Comer, and
Lydia Brown.

Lawson Woods, of Grand Rap-
ids, Mich., is a guest at the home
of Miss Clara Macomber, and Mrs.
Alice Hubbard.

Mr. and Mrs. W. H. Stice of Il-
linois, are visiting at the home of
their daughter, Mrs. Charles Pres-
ton.

Members of the Camp Fire
Girls group here enjoyed an out-
ing camping trip and picnic at
Balboa Palisades this week. Mrs.
Emma B. Hield was the chaperone
for the party. Those who enjoyed
the beach party were Miss Helen
Griset, Miss Edith Johnson, Miss
Louise Griset, Miss Marie Carson,
Miss Alma Condra and Miss Hield.

Silk garments have the effect of
causing a rash in certain people.

Financial and Market News

CALIFORNIA ORANGE MARKET HOLDS UP

LOS ANGELES, July 18.—(Office of
the Fruit World).—The market on
best grades of California Valencia or-
anges in sizes 200s and 250s was
strong and higher this week. Small
sizes, also poor stock, showed an eas-
y tendency with somewhat lower
prices.

Shipments for the week showed an
increase of 147 cars over the pre-
vious week. The drop has not been
sufficient to cause alarm and in-
creased by continued hot weather.

With no accumulation of cars on
the coast, the country and gener-
ally hot weather prevailing, the con-
sumption of oranges should in-
crease. The increasing demand for orange
juice, particularly during periods of
extreme temperatures should bring
attention to small sizes. An early im-
provement in the market on these sizes
is looked for.

There are no established f. o. b.
prices. Quotations are on individual
cars.

Lemon Market
The market on good stock California
lemons in fine shape again. In the
middle west, markets from Chicago west
have been taking practically all sup-
plies.

Supplies of foreign lemons in east-
ern markets are cleaning up in good
time. The bulk of foreign lemons will
be gone east again with supplies next
week.

Extra California quotations on Ex-
tra Choice lemons are on a basis of
\$6.00 to \$6.50 per box.

Cars are on hand and available for
sale within the next thirty days in
all United States ports approximately
327 cars of foreign lemons. For the
corresponding period in 1924 there
were 255 cars; 1923, 569 cars and 1922,
359 cars.

SECTION THREE

SPORTS OF ALL SORTS

With Cobb, Wingo and Heilman up in the first five hitters all during the first half of the American league pennant race and with Manush and Fothergill on the bench, baseball critics are again seeking an explanation of the remarkable luck that Detroit has had and still has in finding star outfielders.

The club seems to be able to find a slugging outfielder by a mere snapping of the fingers and it has been unable to find one good second baseman, with whose help the team might win a pennant.

The breaks have worked the same way with other clubs but not with the consistency of the Tigers. The New York Giants have three fine first basemen in Kelly, Terry and Bentley, and the Cincinnati Reds are weeping for one good man on the front door of the infield. The Giants need pitching and the Reds have it to spare.

The obvious thing to do would be to trade, but it is too late now and John McGraw has no intention to strengthen a team that might beat him out for the pennant.

Harvard has settled the pesky problem of summer baseball with a radical rule. The athletic association ordered that all Harvard athletes who cared to get a place on any Harvard team next year could not play ball with any semi-pro team even if it could be proved that there was no compensation involved. This may cut down the supply of baseball material because a player naturally must have some practice and experience, but it will cut off the source of any scandal.

The idea in many of the big universities is to allow a baseball player to do anything as long as he is not caught at it.

After the fine showing that was made by young Frank Hussey in winning the national A. U. 100-yard championship, there are many critics who believe that he may be the long awaited sprinter who is to break the old record.

Hussey has a lot of natural talent that he showed when he was running for Stuyvesant high school in New York, and he was well handled by a coach who saw to it that the kid didn't ruin himself by too much competition. He will be a sophomore at Boston college next year and he will have the advantage of three more years under one of the very best coaches in the country.

He is a very likeable youngster and there is no chance that success will go to his head.

Missing Girls, Both 17, Found On Board Liner

NEW YORK, July 18.—The disappearance from their homes of Sigrid Hendel, daughter of Oscar Hendel of Tenafly, N. J., and her chum, Dorothy Kelly, daughter of Mrs. Anna Kelly of Englewood, N. J., was cleared up when the Swedish-American line received a radiogram from Captain Anderberg of the liner Drottningholm, bound for Gothenburg, saying that the girls were stowaways on his vessel. They are 17.

The message said the girls went to see some friends off on the Drottningholm.

Sigrid had made a trip to Sweden last summer with her parents, and the experience was so fascinating that she determined to take another and persuaded Dorothy to remain on board.

BOUGHT 308 TOADS.

FRANKLIN, Pa.—The back yard of a man here was alive with ants. He advertised that he would pay 10 cents for toads. Boys came by the score and he had to buy 308 toads.

Register Want Ads Offer

A Thousand and One Ways

To Make Money!

Here Are a Few of Them—

1. Sell household furniture and equipment for which you have no further use or space.
2. Rent spare rooms to desirable tenants.
3. Dispose of last season's suit or coat.
4. Secure full or part-time employment.
5. Engage household help.
6. Rent vacant houses and apartments.

I MAY BE ONLY A HUMBLE FARM HAND, CLINTON SINCLAIR, BUT I'M MORE OF A GENTLEMAN THAN YOU ARE IN SPIRIT OF YOUR CITY WAYS!

I DON'T KNOW WHAT THAT MEANS BUT I KNOW IT AIN'T A NICE WORD AN' I'M GOIN' TO GIVE YOU A LICKIN' IN FRONT OF THE SWEETEST GIRL IN THE WHOLE WORLD!!

BAH YOU OAF!

HELLO, VI!

OH, JOE DEAR, I DIDN'T EXPECT YOU UNTIL TOMORROW—WHAT A SURPRISE!!

BOYS, I WANT YOU TO MEET MY HUSBAND, JOSEPH ZILCH!!

WHY WE DIDN'T KNOW YOU WERE MARRIED!!

WELL, YOU SEE I ALWAYS USE MY STAGE NAME, "VIOLET TALCUM"!!

ALL BOOBS ARE NOT FROM THE COUNTRY, LUKE!!

I SHOULD SAY NOT, CLINT—I KNOW WHERE THERE'S A BIG JUG OF HARD CIDER!!

NEW COACH OF S. A. COLLEGE VISITS HERE

Graham E. Harris, newly elected coach of junior college athletic teams here, paid his first visit to Santa Ana yesterday and made a home for himself right off the bat. Of a pleasing and "sunny" personality the newcomer made a favorable impression with those he talked to.

Harris comes to Santa Ana from Santa Monica high school where for the last year he has been assistant athletic director. Before that he coached various sports at Compton, the San Diego Army and Navy academy and Odebolt, Ia., high school.

He is a graduate of Coe College at Cedar Rapids, Ia., where he made his letter in football, basketball, baseball and track. He was named All-Midwest halfback in his last year at Coe and was regarded as one of the premier backs in that section of the country.

The new mentor is residing in Hollywood at present but intends to move to Santa Ana with his family not later than September 1.

Harris said he was an ardent believer in open football and that he would make every effort to give Santa Ana a junior college eleven that will know what forward passes and other tricky "stuff" is all about.

"I haven't been able to interview any of the candidates for the junior college team and I won't know until in the fall what kind of material we'll have to work with. I have been told that quite a number of last season's crack team plan to enter other colleges but that several excellent prospects from high school teams will enroll with us."

"I heartily approve the scheme to establish a training camp at some near mountain retreat chiefly because it would enable the new coaches to personally come in contact with the players who will report for practice."

LOS ANGELES, July 18.—Announcement that horsemen of California will try to bring horseracing back to the state with the pari-mutuel system of betting was made here yesterday at the weekly meeting of the Breakfast club, an organization of racing enthusiasts.

Hamilton H. Cotton, officer of the club, declared the organization would circulate petitions similar to those which restored boxing to the state.

SPY GETS 12 YEARS. COLGNE.—Holmrich Strippgen, formerly employed by the Krupp and charged with selling plans of big guns to foreign powers during the war, has been sentenced to prison for 12 years.

DEER TAKES HIS CABIN. SAN FRANCISCO.—When William Plangrave returned from a stroll up in the mountains one night, he found four deer had taken possession of his cabin. They were all licking salt off the kitchen table.

FILLED PHONE COIN BOX. NEW YORK.—A man recently talked to Havana from a coin telephone here. His bill was \$105 and after filling the coin box with coins he drove around to the telephone office in his taxi and paid the rest of the bill.

GOSSIP of the RING

Since Harry Wills topped Charley Weinert over with a couple of pokes in the stomach you may have read many boosts of the negro challenger.

The fight with Weinert proved nothing that hadn't been known of Wills before. It showed merely that he is invincible against a set-up. If you are taller than an opponent, weighed thirty pounds more, was vastly more powerful and saw a look of stark terror in his eyes, you would do to him just what Wills did to Weinert.

Weinert was beaten when he signed the articles. It must have been the promise of more money than he had ever made in any four or five of his previous fights rather than any hope of avoiding a knockout that caused Weinert to take the fight. Any competent observer close to the ring could have taken one look at Weinert as he sat in his corner and put up the house and lot that he was gone.

Wills naturally looked strong and powerful because he could fight just the way he wanted to fight. He had no fear of his opponent and he had only the task of squaring his man around so that he could get a couple of good shots at him. The only time Wills ever made a good showing was when he was facing a big, slow, terror-stricken opponent. Any strong fighter can win when there is no offense to guard against. Little Bartley Madden showed what an ordinary fighter with a lot of courage can do to Wills.

Because of the tremendous difference in their size and weight, Wills might be able to beat Tunney, and Tunney right now is the only heavyweight who is qualified to dispute the claim of Wills for first consideration as a challenger for the heavyweight championship. Wills might beat Tunney, but it is doubtful that he could knock him out, and challengers force champions in action by knocking out first-class men and not by winning decisions.

Unless he has gone back a hundred miles, Jack Dempsey should not have a moment of danger in a fight against Wills. The former stevedore is the type that always has been a mark for Dempsey. Weinert did not cover up as Dempsey would not cover up as Wills. Wills would not go into Dempsey with the care free abandon that he did against the panicky Weinert, because Wills knows what Dempsey can do at close quarters.

It is all idle chatter, however, to speculate what would happen if Dempsey and Wills met because you can bet the price of a case against a dime that the fight never will be staged.

Tex Rickard always has crossed his fingers when discussing this proposed bout. He says it is a match that could be made easily but that could be staged only with the greatest difficulty.

"Even if political conditions were satisfactory, it would take a year to put the match over and a year's work might be ruined by a few short words from some judge," Rickard says.

PARIS IN 12 YEARS. COLGNE.—Holmrich Strippgen, formerly employed by the Krupp and charged with selling plans of big guns to foreign powers during the war, has been sentenced to prison for 12 years.

DEER TAKES HIS CABIN. SAN FRANCISCO.—When William Plangrave returned from a stroll up in the mountains one night, he found four deer had taken possession of his cabin. They were all licking salt off the kitchen table.

FILLED PHONE COIN BOX. NEW YORK.—A man recently talked to Havana from a coin telephone here. His bill was \$105 and after filling the coin box with coins he drove around to the telephone office in his taxi and paid the rest of the bill.

HOLLYWOOD IS EASY FOR S. A. INDOOR STARS

Basehits were the vogue at Poly field last night when the Santa Ana Junior Chamber of Commerce indoor baseball team, local representative in the Southern California league, trounced Hollywood, 12 to 6, for the second time this season. The victory kept the local outfit in the race for titular honors.

Santa Ana touched up Law, movie city flinger, for eleven bingles. Hollywood got even off Tommy Hitt and "Tex" Bergman. A large crowd was on hand considering the contest was started an hour late due to electric light trouble.

Bill Cole's home run with Wilcox, who had doubled, on base gave the locals a two-run lead to start with in the initial frame and this advantage never was relinquished. Hits by Jerome and Scott, an error and a walk to Hill were responsible for three more junior chamber tallies in the third.

Everett Lutz made the route on a hit and outs in the fourth and Hitt's single followed by walks to Hill and Wilcox brought in another in the fifth. Walks to Snow and Walters and Jerome's homer chalked up three more in the sixth. Bingles by Hill and Cole added one more in the eighth and the Santa Ana score, 12 to 6, was completed in the eighth when Echols got a blow and went around while the side was being retired.

A pass to Drunart followed by successive two-baggers from the mallets of Sherman and Sultenfuss gave Hollywood a pair of counters in the second. Two errors, a walk and a hit gave the visitors another in the third. A hit by Schroeder, a pass to Misture and Drunart's home run accounted for three Hollywood runs in the sixth. Hitt was yanked at this juncture and Bergman tolled the rest of the route, allowing but one hit and no runs to the end.

The Junior chamber outfit meets Orange here next Tuesday. On the first swing around the indoor baseball circuit, Orange defeated the local men by a close score. The box score:

Santa Ana	Hollywood
ABR.H.	ABR.H.
Hill, c.....2	Rail, 3b.....1
Scott, 3b.....2	Schroeder, 1b.....1
Wiles, 2b.....2	Miskin, 1b.....1
Cole, 1b.....4	Drunart, 1ss.....3
Snow, 2b.....2	Chow, 2b.....4
Leitz, rss.....1	Sherman, 2b.....4
Echols, 1ss.....4	Sultenfuss, c.....1
Walters, 1b.....3	Adams, 1b.....0
Jerome, rf.....2	Law, p.....0
Hitt, p.....2	Carlson, c.....0
Bergman, 2b.....2	
J. Lutz, cf.....0	
Totals.....34 12 11	Totals.....34 6 7

Score by Innings:
1 2 3 4 5 6 7 8 9
Santa Ana.....0 0 1 0 3 1 1 1 1
Hollywood.....0 0 0 0 0 0 0 0 0
SUMMARY: Home runs—Cole, Jerome, Drunart, 2 bases hits—Wilcox, Snow to Walters, struck out by Hitt, 5; by Bergman, 4; by Law, 4. Base on balls—Hitt, 2; off Bergman, 3; off Law, 6.

EUROPEAN WORKER WILL ADDRESS Y.

Ralph C. Smedley, general secretary of the Santa Ana Y. M. C. A., announced today that Charles Tidball, former Santa Ana resident, for the last few years engaged in Y. M. C. A. work, will address here next Thursday night.

Tidball's work has involved travel all over southern and eastern Europe, in most of the regions affected by the great war, thus giving him an unusual opportunity to observe post-war conditions, and to help in the general work of reconstruction.

The Santa Ana Y. M. C. A. invites all who are interested to attend the gathering in the building at 8 o'clock next Thursday night, in honor of Mr. and Mrs. Tidball. Men and women will be welcome.

NOTHING FEMININE HERE. ATHENS.—Nothing feminine is allowed on the Athos peninsula, where monks of a Greek church live. Even hens are barred.

TYPIST SETS RECORD. PARIS.—In recent test, a French typist struck 10,943 keys in thirty minutes with only twenty-one mistakes.

THOUSANDS SEE NEW SPEEDWAY OPENED

The new Baltimore-Washington Speedway was opened with the 250-mile inaugural race which was won by Peter de Paola, Bob McDonough, an understudy of Tommy Milton, being second. The time for the race was 2:15:28. The general view of the new speedway is shown with inset (left) de Paola placing his mascot—his baby's shoe—on his car. Inset (upper right) Ralph de Palma comes up smiling after a spill that covered him with blood.

LA BARBA IS EASY WINNER OVER RIVERS

LOS ANGELES, July 18.—Fidel La Barba, former world's amateur bantamweight champion, won the decision from George Rivers, Mexican, in 10 rounds at the Hollywood Legion stadium last night.

La Barba, who recently won from Rivers by a shade, was ahead by the proverbial left hand. Fidel started in with a rush and won the first three rounds, coasted the next four, and speeded up again to win the last three.

This bout was expected to prove an obstacle to La Barba's announced intention to set sail for the flyweight title vacated by the death of Pancho Villa. But, in the opinion of ringiders, it only confirmed the conviction that La Barba is one of the best little fellows in the country. While the fight was held at 116 pounds, George Blake, La Barba's manager says he can make the flyweight limit of 112 pounds easily.

Irvine

IRVINE, July 18.—Mr. and Mrs. Walter Cook and daughter, Leona, are spending the week at San Juan hot springs.

Miss Marion Smith of Tustin visited Miss Opal Daugherty Wednesday.

The following attended a theater in Santa Ana Wednesday. Mrs. Dick Horton and son, Earl, Mrs. Bruce Stockton and children, Mrs. Henry Boosey and children. Mr. and Mrs. Jack Thornbarrow and children visited Mr. and Mrs. J. A. Ross Tuesday.

Mrs. Florence Cannon visited her son, Clayton, who is slowly recovering from an operation, Thursday afternoon.

Mr. and Mrs. J. A. Ross and children will spend the next two weeks at San Juan hot springs. Mr. and Mrs. Henry Boosey and family visited Mr. and Mrs. J. A. Ross Wednesday evening.

SWISS ROSES TO CANADA. MONTREAL.—Efforts will be made this summer to transplant Swiss mountain roses to the Canadian Rockies. The roses thrive only at elevations above 3000 feet.

WAIKIKI LURES THEM. HONOLULU.—Daniel Heenan of Los Angeles, just couldn't leave Hawaii. He got on a steamer and then changed his mind. He dived into the harbor and a tug boat rushed up just in time to save him from being sucked into the propeller blades.

Piping 'Em Off

Yesterday's hero—Jimmy Caveny of the Reds—who accepted 18 out of 17 chances at shortstop, helping down the Robins, 4 to 0.

"Duster" Malls, eccentric Cardinal southpaw, pitched the Giants out of first place, holding the champions to four hits and winning 6 to 1.

Tying the count in the ninth, Pittsburgh scored four runs in the tenth and resumed the league leadership, beating Boston 7 to 2.

The Phillies got away to a four run lead in the first, but the Cubs rallied and won 7 to 5.

Running their winning streak to seven games, the Athletics gained a full game over Washington by trimming Chicago, 8 to 1.

The Senators lost to Detroit 6 to 3 in a game which was featured by the bunting of Ty Cobb, for protesting a decision.

Playing with something of their old time vigor, the Yankees evened the series at Cleveland with a 5 to 1 victory.

St. Louis moved up into third place in the American League by sweeping the series with the Red Sox, taking the final game 9 to 3.

NEW YORK, July 18.—Increase in registration in colleges and universities in the United States during last year is paralleled by increases in gifts and expansion of grounds and buildings.

Eighty of the most important colleges and universities alone offered their educational wares to almost 500,000 customers. Eighty-three of the leading colleges and universities now have 235,248 students, this being 15,299 more than a year ago.

This list contains only those students who have no present occupation besides going to college, and is fairly representative, as it includes small denominational colleges, state universities, small co-educational colleges, and colleges exclusively for women.

In this group the increase in attendance for the last year was 6.12 per cent. Although this increase is not as large as in the period immediately following the war, it is much larger than the increase in population.

In 1910 there were just two colleges listed with more than 5000 full time students each. Three others had in excess of 3000. The ten largest combined had a total enrollment of less than 43,000. Today there are registered in these ten institutions more than 101,000 students.

Comparison with this 101,000 with 144,000 enrolled in a much larger group of schools would seem to indicate an increasing concentration in the larger universities. At the University of Illinois, an enrollment of 25,000 may be realized in the near future.

MURCHISON WINNER AT ENGLISH GAMES

LONDON, July 18.—Loren Murchison, American sprinter, who has been touring the world with Charley Paddock, won the finals of the 100-yard dash in the A.A.A. track and field championships at Stamford Bridge today.

Murchison's time was 9.9 seconds, the New York flyer leading the French sprint champion, Theard, to the tape by a scant half yard. Paddock is not competing, having remained in Sweden for some match races.

Seals, Needing Hurlers, Bring Dick Moudy Back

SAN FRANCISCO, July 18.—In desperate need of pitching reinforcements, the San Francisco team of the Pacific Coast Baseball league today recalled Dick Moudy from the Lincoln club of the Western league.

Moudy will leave Friday night and join the Seals Friday at Sacramento. McWeeny, Griffin and Pfeiffer are all on the shelf with injuries which prevent them from their regular turns.

ORANGE LIKE FOOTBALL. CONSTANTINOPLE.—A new species of oranges, almost as large as footballs, are being raised in the Near East.

HYLYTE, First and Main Sts.

ENGLISH TRACK TEAM FAVORED TO GRAB MEET

Oxford-Cambridge Are Believed Too Strong For Princeton and Cornell

By HENRY L. FARRELL (United Press Sports Correspondent) ATLANTIC CITY, N. J., July 18.—For one of the few times since inauguration of international varsity track and field meets, an Oxford-Cambridge team was favored to defeat an American college combination.

The cantabs and Oxonians, who held Harvard and Yale to a tie in first places at Cambridge last week and only lost when second places were counted, were picked by the experts to beat a Cornell-Princeton aggregation this afternoon.

The American team was weakened by injuries and on paper did not shape up as strongly as the Crimson-Blue stars who were so hard pressed by the visitors at Harvard stadium.

The weather was fair, ideal for records but the track was slow. The Englishmen were considered certain winners in the half mile and mile with D. C. A. Lowe, the Olympic 800 meter champion, in form.

Lowe won both these events at Cambridge last Saturday. It was thought likely that the visitors would account for first place in the two mile run, both hurdles, the high jump and possibly the sprints. Perrett, the New Zealander, should win at least one of the latter events.

Lord "Dave" Burghley, the British hurdler, was looked upon as the best bet in the hurdles, as Scattergood of Princeton has been troubled with a bad leg.

The same scoring system as was used at Harvard stadium will prevail, each first place counting as one point and second place being reckoned only in case the first series results in a tie.

Fights and Fighters

NEW YORK.—Gene Tunney said today he had a verbal agreement to fight Jack Dempsey here September 18. "And if he meets me, he will never have to worry about fighting Wills," Gene added.

ALBANY, N. Y.—Believe it or not, Mike McTigue, former World's light heavyweight champion, won a bout here last night, stopping Frankie Carpenter of Freeport in the seventh.

NEW YORK.—Mickey Walker, world's welterweight champion, is expected to sign articles to meet Dave Shade here this fall when the pair comes before the boxing commission next Tuesday.

EAST CHICAGO, Ind.—Sammy Mandell, lightweight of Rockford, Ill., beat Solly Seeman of New York in their ten round battle here last night.

RADIO NEWS

GUIDES HER STUDENTS IN 'HAM' WORK

By ROY J. GIBBONS
NEA Service Writer

CHICAGO, July 18.—When Miss Elizabeth Bergner here graduated from high school several years ago she visioned nothing much ahead save empty time hanging on her hands.

She wanted to keep busy and decided that a hobby of some sort was the best thing to tie to for a person of her disposition and ambitions.

Radio at that time was then quite in its infancy. No one knew much about it and it was no topic for a layman, at least.

But Miss Bergner chose radio because it was difficult to master and would keep her mind as busy as she wished it to be.

Followed years of attendance in a night school learning how to press a key and send wireless messages.

And then we skip along until we arrive at today.

One of Her Courses
Miss Bergner is no longer the radio novice with only an ambition to serve and a hobby to pamper.

She is a master of the subject. In fact she teaches it as a regular instructor at Lane Technical High School here and finds sufficient opportunity on the side to conduct classes in mathematics as well.

It was at her suggestion and under her personal supervision that this year's graduating class built a home-made sending set and presented it to their school as a gift.

The station has been given the call letters, WLHS, which stands for "Wireless Lane Technical High School."

The station has a range of 255 meters and operates on storage batteries of 100 watts capacity.

Built at School
Every piece of the apparatus was either constructed by Miss Bergner's students or donated.

in Chicago they call her the "lady radio wizard."

But Miss Bergner pretends to be nothing of the sort.

She is most feminine in manner and one would imagine from first sight that she would know more about choice recipes and domestic subjects rather than being fully conversant with such mysterious things as filaments, circuits, condensers and the like.

She has built countless receiving sets but this is her first sending set.

She is 29 and believes that radio broadcasting tends to equalize the minds of students.

"It reacts on their studies and helps them concentrate," she says. "It is training similar to dramatics."

Her student-built set will be used to broadcast educational topics. Seventy-five students competed for the honor of being first official announcer. The post was won by 17-year-old Richard Krops.

BUILDER

Sometimes she teaches mathematics at Lane Technical High school in Chicago, but Miss Elizabeth Bergner is best known as a radio builder. In fact, she has directed the construction of the school's broadcasting station, WLHS.

ROYALTY TUNES IN

The Japanese emperor and empress are confirmed radio fans, despite their disappointment in a receiver they had formerly. They are getting a better instrument from America and are promised good reception.

CHAMP CORRESPONDENT

The champion radio correspondent is Mrs. R. M. McCord of Healdsburg, Calif., according to Isabel Francies, chief of the KFI correspondence staff. In two years Mrs. McCord has averaged a letter a day and once reached a high level with 12 letters in one mail.

RADIO THE ORACLE OF MODERN TIMES

DENVER, July 18.—Is the Delphi, the famous Grecian oracle of Apollo, going to be revived in a new form?

Radio broadcasting stations say that people are addressing them with questions of such personal and prophetic character that the answers could only be given by the divinely inspired oracles of the ancient Greeks.

Station KOA, at Denver, for instance, exhibits a shower of letters from enterprising spinsters and bachelors who seek omniscient guidance in their matrimonial difficulties.

An Illinois girl gives her age as 18 and says that she could settle down with "any nice man, if such a creature exists." To make the task a little harder she adds, "I have never been able to run across one yet."

Other letters of equally personal nature, some writers desiring to exchange letters with persons of opposite sex, are received. However, station KOA refuses to give answers and has adopted a strict policy of "hands off."

AMATEUR NIGHT

Station WJNY at New York sets aside every Thursday evening as amateur night, similar to the old-fashioned burlesque. Amateur performers will broadcast in safety. If an amateur gets a big response from the listeners, he may be booked permanently.

RADIO BY TELEPHONE

Although "Roxy and His Gang" will spend three weeks in Canada, they will continue their Sun night entertainment for radio fans through the WJNY station and others. The program will be transmitted over 350 miles of telephone lines before reaching the speech input control of WJNY.

IN THE STOCKYARDS

A microphone is placed in the center of the stockyards of Chicago, for broadcasting of the latest livestock market reports. Station WJNY sends them out by remote control.

RADIO'S FRECKLES

You can't see the freckles on the face of Mary McGinnis, 8-year-old favorite of radio station WJJD, at Moosehart, Ill., when you hear her through the air. But you can just feel they're there by her saucy and entertaining voice. Mary has proven such a favorite that she thinks she'll have to get a private secretary to take care of the numerous letters she gets daily.

ARTIST ENTERTAINS

Mrs. Clifford Shaten, wife of the famous artist, is presenting a series of violin solos over WKRC. Mrs. Shaten is a prominent concert artist and well known abroad where she studied in Rome and Berlin.

POLAR PROGRAMS

Every Wednesday evening while Donald B. MacMillan, famous explorer, is in the arctic zone, station WHT at Chicago will broadcast special programs for the expedition.

11:00 to 12:00 p. m.—Hotel Ambassador, Abe Lyman's Coconut Grove orchestra.

11:00 to 12:00 p. m.—Campus night, students of University of Cal. Southern Branch.

Short Cuts

Things to Know in Building and Operating a Receiver

Tools the set builder needs are a small vice, small-pointed soldering iron, set of screwdrivers up to 3/4 inch, breast drill, bits, countersink, one brace with set of wood drills, two pairs of pliers, hacksaw with blades, penknife, set of hexagon socket wrenches and small files, including triangular and ratchet types.

To make an emergency loud-speaker, put each telephone receiver of the diaphragm downward. Two match-sticks should be placed between the cup and the headpiece so as not to "choke" the receiver.

Grounding the negative A battery line in your loop set will increase volume.

Place a low-loss coil no closer than one inch from the plates of a variable condenser.

For a battery tray use a Pyrex cake pan of the size required.

WEEK WITHOUT REST

The Shriners' convention at Los Angeles kept station KJH there on the air for a continuous stretch of 150 hours and 19 minutes. About 3500 selections were played and sung in this time.

Canoe Voyagers

In Kansas City

KANSAS CITY, Mo., July 18.—Three voyagers who are traveling across the continent on inland waterways were due to arrive here from St. Joseph late yesterday.

John Edwin Horg, Frank S. Wilton and Val Woodbury left Astoria, Ore., May 20 in an 18-foot motor boat. They expected to reach New York by September 15.

The trip has been without unusual incident, according to Horg, rags. 2405-07 West Fifth St.

Girl Is Bitten

By Jealous Horse

OXNARD, July 18.—Miss Ida McGrath, daughter of a prominent family, is in danger of losing a hand as a result of infection in a wound caused by being bitten by her pet riding horse. In approaching her horse and two others, petted for a ride, Miss McGrath, petting the other horses before the latter's jealousy was aroused and when she held out her hand to pet it, the horse snapped at her, inflicting a painful injury.

Wife-Beater Gets

Lash Punishment

FREDERICK, Md., July 18.—Robert Shroyer, 28, confessed wife beater received 10 lashes across his bare back at the hands of Sheriff Albright. Shroyer is the third man to receive this treatment in Frederick during the last 12 years. On the two former occasions the victims were his wife and daughter. Shroyer was strapped and bound by his hands and wrists to a cell window. Only four persons other than the sheriff witnessed the punishment. Shroyer returned immediately to his home, refusing to make any comment. His wife, the victim of his beatings, was awaiting him there.

Are storage batteries better

than dry cells?

Answer: The question of whether to use dry-cell batteries or storage batteries is more a matter of convenience and economy than anything else. Good, fresh dry cells, and good, properly charged storage batteries will both give perfectly satisfactory results. If you are conveniently located so that you can charge your battery regularly, a storage battery would generally be considered more economical, especially for use with a UV-200 type tube or with more than two UV-201A type tubes. For that reason, UV-201A type are usually called "storage battery tubes," and the smaller tubes are known as "dry battery tubes."

BAND CONCERTS

The municipal open air band concerts, which have been a feature of Milwaukee summer recreation for many years and which draw an attendance often more than 10,000 persons, are to have a still wider audience this summer. Station WHAD will broadcast two concerts each week on Sunday afternoon at 3:15 and on Wednesday at 8.

PROBLEMS OF DELINQUENCY ARE TAKEN UP

Juvenile problems in their many and different aspects, taking cognizance of juvenile delinquency, and emphasizing need of giving more attention to the care and welfare of abandoned children, were discussed by various speakers at the regular luncheon meeting of the Knights of the Round Table, held yesterday at St. Ann's Inn.

Donald G. Jerome was in charge of the program, which was devoted entirely to the discussion of juvenile welfare, listed as one of the proposed objectives of the organization. As a result of this discussion, the president was authorized to appoint a special committee on juvenile welfare, the duties of which would be to collect data on the subject, investigate, and report upon advisability of the organization interesting itself in this kind of work.

Saving Abandoned Children

The need of organized effort on the part of service clubs, civic organizations, women's clubs, and P. T. A. bodies, in promoting the welfare of abandoned children, many of them the wards of the authorities, was the subject of a discussion headed for a criminal career unless saved in time, was pointed out by Arvid E. Gilmont, of the Santa Ana Register staff.

In the course of his remarks, he drew a picture of such a child, often the victim of a domestic tragedy, frequently forced to assume the role of breadwinner at a tender age, who, as a result of a verse circumstance, falls into the hands of the authorities. To save such a child from becoming a criminal, it must be approached as a friend and equal, talked to in its own language, the speaker declared.

Need For Sympathy

More sympathy for unfortunate children, obliged to shift for themselves, was the keynote of an address by Dr. James Workman, who added that, if organizations like the Knights of the Round Table would interest themselves in juvenile welfare, many a boy and girl, now inmates of a juvenile home, could be restored to society and good citizenship.

Others to voice their approval of the proposal to make juvenile welfare one of the principal objectives of the organization were Dr. W. A. Flood, Clyde C. Downing, W. I. Stewart and L. A. Olson.

In his words the subject under discussion, it was announced by the entertainment committee that arrangements have been made to have Judge Emerson J. Marks, in charge of the juvenile court; Chief Probation Officer Leroy A. Warren, and several school executives address the organization.

It also was suggested that steps be taken to get in touch with other organizations interested in this work, and to secure speakers from Los Angeles.

REVIVED BANK IN

SHELBY IS CLOSED

SHELBY, Mont., July 18.—After being dragged to its corner in a groggy condition and resuscitated two years ago, the First State bank here has again gone down for the count and Shelby today is once more without banking facilities.

The institution took a long count as a result of the Dempsey-Gibbons fight fiasco here two years ago, but was revived and placed upon its somewhat shaky legs during December, 1923.

Thursday the bank failed to answer the call at opening time and officers declared that inability to realize on claims against the old bank had forced a second suspension.

Wife-Beater Gets

Lash Punishment

FREDERICK, Md., July 18.—Robert Shroyer, 28, confessed wife beater received 10 lashes across his bare back at the hands of Sheriff Albright. Expect to Finish

Sacramento River Canyon Road Work

REDDING, Calif., July 17.—It is believed here that the California highway commission intends to continue the reconstruction of the Sacramento river canyon section of the Pacific highway to the Siskiyou county line. This belief is based on the report that highway commission engineers have been directed to have their surveys of the proposed reconstruction completed by September 1.

The reconstruction of the Pacific highway between Redding and Dunsmuir, the most rugged section of the whole route, was begun last year. A 10-mile section just north of Redding was paved and a 10-mile section beyond reconstructed to cut down grades and eliminate sharp turns and narrow places. This year a 13-mile contract is under way just north of last year's work. Excellent progress is being made and it is expected here that as soon as this contract is completed the highway commission will let another contract.

There remain nearly 30 miles of highway to be reconstructed. As this reconstruction can be financed with gasoline tax money, it is considered probable here that the highway commission will let the remainder of the work in two, or possibly one, contract. The reconstructed road cuts the distance four miles.

Movie Chatterbox

Rudolph Valentino is going back to the "sheik" stuff to please the flappers and fatten his purse.

The sheik of the screen has decided that the only way to remain popular with the fans as well as the critics is to feed them what they want in film fodder.

"Since I made my first big hit in 'The Sheik' I have tried to create very artistic pictures," Valentino said. "In a way I went over, but never like 'The Sheik.'"

"I had visions of improving the public's taste for finer films. Bah!—From now on I will watch the ticket-window and give them all this sheik stuff they want."

Rudy reluctantly admitted that his last pictures have not had the box-office pull he had hoped for. He deplores that fact because he feels he is a better film actor today than he was when he made "The Sheik."

Will Play Russian

However, in returning to his old "tricks" to re-win the flappers' hearts, Valentino is not going to rejuvenate the Latin brand of heart-breaker. He plans to be a romantic Russian.

The actor believes he can endow the Russian lover with the same romantic glamour which now surrounds every handsome son of Italy or Spain because of the original Valentino interpretation.

The cameras are already grinding out the initial scenes of Valentino's next production, which he calls "The Untamed." Rudy of course is the "untamed" part of the picture.

He is a Russian bandit, stealing everything from vodka to girls' hearts, mostly the latter. He rides handsomely on a fast horse, dances and makes love with the same ardor that characterized "The Sheik."

He does not wear whiskers and there are no bolsheviks in the story as the action takes place before the Russian revolution. But he is a "sheik" at heart, and he plays it in a diabolical fashion, in a background of old Russia.

Bemoans "My Art"

It grieves Valentino to become a sheik again and abandon his best art to cater to the ticket-buyer.

"I hate to be called 'The Sheik,'" he said, "because the word has taken on a devilish meaning."

"I pick up a paper and what do I see? A 'sheik' has been arrested for annoying girls in a dance hall, or wearing lace for trousers cuffs. Another 'sheik' has murdered his grandmother because she wouldn't give him money to buy gin."

"I should like to make pictures that would appeal to the fans like 'The Sheik' did, but I want to make them better. That of course is a difficult thing to do."

Secretary of the Navy Wilbur has been cast in "The Midshipmen," a production, in the role which President Coolidge refused to play.

Wilbur was filmed handing a "diploma" from the United States Naval academy to Ramon Novarro, featured player in the photoplay.

Taken at Annapolis

The scene was taken at Annapolis on commencement day, and gives a close-up of the secretary presenting the movie hero with the fake diploma. President Coolidge was asked first to make the presentation.

Novarro returned to Hollywood boasting he was the first young man who ever "graduated" from Uncle Sam's naval academy in two weeks.

Francis X. Bushman Jr. aspires to fill the mantle of film fame laid aside by his famous father a decade ago.

Young Bushman is already on the road to stardom. He was recently cast for the starring role in "Never Too Late" under direction of Forest Sheldon.

The picture is a comedy-drama in a modern society setting.

NOISES WANTED

If you can find a ingenious device that can imitate a well known noise, send it to station WRNY. A prize of \$25 is offered for such devices.

RACE NEWS FOR FANS

Radio broadcasting station WGN is to broadcast the important race events of the summer season from the Hawthorne Jockey club, west of Chicago.

NOTICE

We will pay \$500 reward for information that will lead to the arrest and conviction of any one stealing papers or money from paper racks placed in the REGISTER PUBLISHING CO.

UNITED JUNK CO. Ph. 1519-R

Highest cash prices paid for iron tubes, paper, iron, metal and other junk. 2405-07 West Fifth St.

REALTORS MEET IN DETROIT IS ADDRESS TOPIC

The principal officials of the National Association of Real Estate Board will attend the state convention of the California Real Estate association, in Fresno, October 7 to 10, Glenn Willaman, executive secretary of the association, declared at the weekly luncheon meeting of the Santa Ana Board of Realtors in Ketter's cafe yesterday.

From present indications, the Fresno gathering will be the best attended of any held there far. Willaman declared it is planned to so arrange the schedule that all meetings will begin and end on time, he declared.

New President Pleases

Highlights of the trip of California realtors to the national convention in Detroit last month and facts on the convention were given by Willaman. While politics was in evidence at the big meeting, the election of Robert Jemison Jr., of Birmingham, Ala., as president, appeared to please everyone, the speaker declared.

Florida was well represented at the convention and had four speakers in the home town contest, which finally was won by the Flint, Mich., board. Willaman said.

The suggestion that California should arrange to have several speakers in the home town contests in order to secure publicity over the radio was made by Willaman.

According to Schedule

"Due chiefly to the fact that the whole thing was carefully planned in advance, the convention went along as smoothly as clock work," said the secretary. "Meetings were held on time, speeches were given on the dot and were concluded on schedule."

"California realtors were royally entertained both going to and coming from the convention. Nothing was too good for us. The golf club of the San Francisco board sang all along the route."

Realtors of Santa Barbara declare that their city will be better than ever before, Willaman said. A member of the Santa Barbara board, who was a visitor to the association office, told him that he was concluding arrangements for erection of a four-story building and probably would start construction next week. Willaman concluded.

OIL LEASE HELD

VALID IN COURT

LOS ANGELES, July 18.—The 140 acres comprising the Elk Hills lease of the Belridge Oil Company was held valid here by Judge W. B. Sheppard in an oral decision handed down following the government's cancellation proceedings.

President Harding's executive order of May 31, 1921, transferring lease making powers from the secretary of the navy to the secretary of the interior was not in excess of his authority, Judge Sheppard held.

The government sought cancellation of the leases on the same charges of conspiracy which resulted in the recent decision by Federal Judge McCormick cancelling the leases made to the E. L. Doherty company.

Smoking School

Teacher Victor

In Job Battle

NEW YORK, July 18.—Miss Helen Clark, 24 years old, school teacher of Secaucus, N. J., who was placed on probation two years ago because she admitted smoking cigarettes, was vindicated when the Secaucus board of education refused to entertain general charges of inefficiency preferred against her by Matthew Pechtel, school supervisor. Members of the board also "requested" Mr. Pechtel to recommend Miss Clark for reappointment.

Erring Preacher

Gone Again With

Family Finances

SOUTH BEND, Ind., July 18.—The itching feet of the Rev. W. W. Culp, public preacher, have carried him away again. This time his destination, his deserted family reports, is Mexico, if his \$90, all the family funds, holds out long enough.

Culp left on the latest of his flights on the latest of his flights from his wife and nine children on July 8, a few days after celebrating the Fourth with them. His departure came the day after Mrs. Cleo Culp, of Nappanee, his brothers wife, with whom he eloped to Chicago last spring, visited their home here, Mrs. Culp whereabouts are not known. She is not here, nor is she in Nappanee.

The forgiving wife of the erring husband has tired of his actions and has obtained a warrant for his arrest, charging non-support. The warrant is on file at the police station until such time as he might return to South Bend.

"We have no way of getting him—no funds with which to bring him back," the police captain remarked, when it was given him by Mrs. Culp.

Culp's heart first leaped while he was the preacher at a little Ohio church. He served time soon after he and a girl were arrested in Michigan. The girl, a missionary, was his sister-in-law, a love at first sight, but after a few days in Chicago they came home, because of the publicity. He said then he was "through." He had said that before.

Art Established

50,000 Years Ago

HEIDELBERG, July 18.—The ideas of mankind 50,000 years ago, was the subject of a discourse by Professor Bern, of Bonn university, at the congress of German Philologists. About 20,000 B. C., the art of the glacial period began to flourish in Europe, said the speaker. This art, he asserted, had its origin somewhere around 50,000 B. C.

He claims that it has been fairly well established that 40,000 B. C., or thereabouts, the Neanderthal beings were superseded by a race resembling that of the present day.

This race had a well-defined cult of the dead. These early progenitors of our present race firmly believed in an existence after death. It has been clearly proved that they feared the dead, as their limbs frequently were broken before burial to prevent them from harming the living, according to the speaker.

STOP CIGARETTE SALE TO YOUTHS

In declaring war on the use of cigarettes by high school pupils, State School Superintendent Will C. Wood is declaring war on a growing evil. School authorities and parents of pupils should acclaim his campaign as both timely and important, and they should give him their utmost efforts in making his campaign a success.

We do not suppose that there are any more cigarettes smoked by Santa Ana High School students than are smoked by students of other high schools the size of Santa Ana. We do know that whatever cigarettes are smoked by students in any high school are just that many too many. That cigarettes to a growing child are a direct detriment to progress physically, mentally and morally is a proven fact; no one denies this to be true. Anything that can be done to stop the sale of cigarettes to youths of any age or sex and in any locality ought to have swift and adequate support.

In many cities small stores established near high schools, located there for the purpose of catering to school boy and school girl appetites for chewing gum, candy, soda pop and ice cream cones, have been suspected of selling cigarettes to students. The storekeeper who sells cigarettes to high school students should be prosecuted vigorously and repeatedly. Every storekeeper under suspicion should be watched. Any storekeeper who caters to high school trade can very easily rid himself of suspicion; all he has to do is to take cigarettes out of his stock, and keep them out.

With Superintendent Wood sounding a call to arms against the cigarette in the schools, he points out an avenue for activity on the part of parent-teachers associations of the state. We have no doubt about the attitude the associations will take; they will give the state school head every possible support in the campaign.

IT'S AN OLD, OLD STORY

In the little matter of stock selling schemes, Santa Ana, we have no doubt, could match experiences with Redlands.

Discussing the most recent experience that Redlands has had with stock salesmen, the Redlands Facts gives a clear-cut explanation of the salesman's interest and at the same time sets down a rule for judging the salesman's talk.

Redlands investors in the stock in the King Products Company are joining in the law suit to try and get their money back, or a part of it. Each is putting up 10 per cent of the original investment for this effort. Yet the history of the King Products Company has been repeated here several times since it was operated, and undoubtedly will be many times more. If people will but get out of their minds that the man who tries so hard to sell stock has, after all, his 20 per cent commission as the impelling cause, and not the returns to the investor, it will clarify the situation somewhat.

Ho, hum! And right now all over Orange County quite a number of men who have earned, by hard work, some extra cash, are listening to the siren call of the stock salesman. Barnum was right.

NO MORE WAR PROFITEERS

It is probably better to spend \$250,000 for the investigation and study of war profiteering than \$250,000,000 in warfare. The world knows a good deal about such profiteering already, thanks to the World War, and will know more by the time Bernard Baruch's remarkable gift has been functioning a while.

War and profiteering seem to go together. The bigger the war, and the more money spent, the more profiteering. Every country in the late war found this out. Billions of American money disappeared in the form of extraordinary profits demanded and obtained by interests providing military supplies to a government too busy and hurried to bargain or investigate. Every war produces its great fortunes, at the cost of impoverishment lower down in the social scale.

If profiteering can be taken out of war, it will do more than save money on war supplies and materials. It will discourage warfare. Many a shrewd patriot will care less for fighting if there is no profit in it.

The conscience of the country seems insistent that in the "next war" there shall be no more profit in war business at home than there is in fighting at the front—that capital shall not benefit by a tragedy that sacrifices life. A thorough study of the question, with full, clear publicity of the conclusions, is a necessary preparation for the drafting of money along with men, in case another such calamity comes.

THE POSTAL DEFICIT

Postal revenues for the fiscal year 1925 are going to leave a deficit of \$40,000,000, in spite of the higher rates. Or possibly it should be said, because of the higher rates.

The rates were increased on certain kinds of mail matter, in order to provide revenue for the raises given postal employees. Large users of the mails, however, have been making less use than before of the mail facilities subjected to this higher rate. They say they cannot afford now to use the mails as they did formerly.

Higher taxation is often found futile as a revenue producer, in the mails as elsewhere. There is always a point of "diminishing returns," beyond which the higher tax fails because people will not or cannot pay it. This argument is being used now with regard to the higher income tax rates, and seems upheld by recent experience in that field—a big surplus following the last lowering of tax rates.

MUST DRIVE FAST

Rhode Island is requiring motorists on its heavily traveled roads to move along at 35 miles an hour or get off the road. This speed, to be enforced by the new state police, was agreed upon by executives of

the cities and towns as "safe and sane" with competent drivers, under proper conditions.

The authorities explain that the highways have cost the people a lot of money, and should be used to full capacity like factories. They are "too expensive to be cluttered up with traffic moving at 12 or 15 miles an hour."

Here is a new attitude toward the highways and a new principle in traffic regulation, which would have amazed the public 10 years ago. The rule calls for careful regulation and careful driving.

Autonomy Sought by Filipinos

Pasadena Star-News

Independence for the Philippines, that moot question which has been agitated almost from the day that the treaty with Spain, freeing the islands from Spanish domination and placing them under the protection of the United States, was signed, is to the fore again. A committee of Congress is in the islands studying conditions there and gathering material for a report and recommendations.

There is only one question to be considered in regard to independence for the Philippines—the question of time when this boon shall be granted. It is argued by those who oppose immediate independence that this, if granted, would not be a boon but a curse. Those who hold to this belief contend that the islands must be educated into fitness to exercise the duties and responsibilities of self-government—and that this process is slow. To give autonomy to the islands before they are prepared, it is argued, probably would result in numerous political revolutions and decadence socially as well as politically. There is much of soundness in this argument—as the strain of Latin blood in the Philippines gives them the same predilections as the Americans until their penchant for revolutions was curbed by the firm interposition of the United States.

But this duty and responsibility should not be overlooked or ignored: The United States is solemnly pledged to give political independence to the Filipinos, in the fullness of time. Nor would there be any warrant for this country maintaining its hold upon the islands and denying them autonomy for an unreasonably long period—far beyond the time that should suffice to prepare the Filipinos for self-rule. The pledge of the United States should be redeemed—and there is every reason to believe that it will be.

Hoover Speaks For Boulder Dam

Redlands Facts

Secretary of Commerce Herbert Hoover is in Los Angeles and gave an interview to the Associated Press yesterday, in which he reiterated former statements as to the necessity of a high dam on the Colorado river, either at Boulder canyon or Black canyon, coupling this statement with a further one, that such a dam will not in any way interfere with other dams either above or below this point, which private enterprise may wish to construct. Mr. Hoover has taken this stand as to the high dam, which enterprise is so steadily opposed by certain interests in California, and his restating of the case cannot but be of large usefulness to the enterprise at this time.

Mr. Hoover also went on to speak of the evil consequences probable, following upon the failure of the legislature to ratify the agreement with the more northern states bordering upon the Colorado and said he feared this failure to ratify will have its bad result in congress refusing to begin the great project soon. The same interests which have opposed the high dam, opposed, and successfully so, the ratification of the compact with the six states, evidently knowing that such action would result in the congressional delay which Secretary Hoover says will now follow.

The Secretary concludes his statement with the succinct remark that "what is needed on the Colorado river is co-operation; neither politics nor litigation will build dams or canals."

But if anyone has any idea that this will put an end to the activities of those who are holding back this great development, for selfish purposes, he has another guess coming.

West Needs Speed

San Bernardino Sun

Twenty years ago the Santa Fe operated a special train for Death Valley Scotty from Los Angeles to Chicago in 45 hours. Although great strides have been made in the development of locomotive power during the two decades since the famous run, the record of 45 hours stands.

During the same period the schedule of the fast regular passenger trains was 72 hours. Only four hours have been cut from this time during the 20 years, although faster and better engines are used, and the roadbed of today is far superior to that of 20 years ago.

The railroads have not kept abreast with the times on western passenger schedules. California needs and must have a schedule calling for two days between Los Angeles and Chicago, or three days between Los Angeles and New York. The west is vitally concerned, for Florida with its faster trains and less distances has an important advantage in this matter of transportation. Railroads interested in California are not interested in Florida. It is to their interest as well as that of California to promote faster trains. The Santa Fe demonstrated 20 years ago with equipment and roadbed now totally obsolete what could be done.

EDITORIAL SHORTS

The paved highway between Redlands and Beaumont is finished and open to the public. One can roll all the way to the "top of the hill" on a fine pavement, now. Of course, the same thing goes for all the towns beyond, but the link that has been missing in the pavement for so long, having been between Redlands and Beaumont, we have come to speak of it as "the Beaumont road."

The importance of the closing of this gap is large. It means that a greater and ever greater volume of traffic east and west is going to roll down into and through Redlands. The Imperial valley travel to Los Angeles will naturally seek the shortest and most direct route, and that is over this road.

"President Starts New Economy Drive," says headline. Wonder if he has finally agreed to give up New England hot cakes and sausage.—Wilmington Every Evening.

YOUR HEALTH

By DR. CLIFFORD C. ROBINSON

TEETH SHOULD BE BRUSHED

Most schools now have dentists whose business is to examine all the children's teeth, and recommend to the parents measures to remedy any defects.

Teeth should be brushed at least twice a day. They should be brushed not only up and down, but crosswise as well.

Food particles have a habit of lodging between the teeth where they escape the brush unless the brush is moved up and down as well as across the teeth.

Many tooth brushes are too soft.

Gritty tooth powder and paste should not be used. The substance cuts the enamel, and opens a way for decay.

Tartar gathers around the gums, causing them to loosen from the teeth. This should be removed by a dentist.

Tooth brushes should be kept clean, and sterilized at least once a week.

The Busy Man's Newspaper

Two Students

Bakersfield Californian

Helen Keller, the noted blind woman, spent an afternoon with Luther Burbank, plant wizard. Helen Keller is famous because she has dared to say "I will know," although she never will see. Of Burbank Elbert Hubbard once wrote: "He has the courage to say, 'I do not know.'" Neither Burbank nor Miss Keller has ever said, "I know," and sat back, complacent with achievement.

Eagerness for knowledge is a basis for enjoyment of life. Beyond that, methods vary widely. Luther Burbank has shunned the interviewer and the hero worshiper. Call at his home, and more than likely he will refuse to see you. That is because he knows that his work demands patient study of facts of which the average visitor is ignorant.

Helen Keller chooses the limelight, meets as many visitors as possible. By encountering many minds, she enlarges what she calls her "field of vision." Contact with other personalities trains the scenes which have compensated for sight. She studies opinions, other people's emotions, and makes the great volume of humanity her chief textbook.

Neither Burbank nor Miss Keller would claim to be educated. Education to them is something which never ends. Death will close the book for them, but they will turn reluctantly from its pages.

Worth While Verse

COUNSEL TO A YOUNG MAN

Clasp not the ankle of the cursive moon
Nor agitate the stars with your despair;
They know you not; and singularly soon
Their beauty shall not be your mighty care.

Impose your will upon the transient earth
And order the divergent ways of man.
Let East Wind know your spirit's mounting worth,
Let cities know which way you will, and can.

Join not with dogs in barking a dead moon,
Increase not mountainous rivers with your grief.
Granite and dumb, outface the raucous noon,
Granite and dumb, hold yet yourself in fief.

Assert the heart, and count not loss or gain
In other metal than the heart allows;
Assert the heart, and know not other pain
Than that wherein a heart may nobly lose.

The pain that stars are stars, that earth is earth,
That man is man, and that hearts, too, shall die.
Though multitudinously you prove your worth,
When Death confronts you, you will not reply.
—Scofield Thayer in The Dial.

Little Benny's
Note Book

by Lee Pappe

Pop was starting to leave for the office this morning, and ma sed, Wait a minnit Willium, I want you to take this sample of taffyta and get me a yard and a quarter of ribbin just like it, 2 inches wide, now do you think you can remember that?

Do I ever forget anything? pop sed.

Dont make me laff so soon after brekfast, ma sed. Meaning yes, and tonight after dinner ma sed, O by the way Willium, ware is my taffyta-ribbin?

Ware indeed? pop sed.

Do you mean to sit there and sayssay you forgot it? ma sed, and pop sed, Jest wait till I tell you the story of that taffyta ribbin, you'll haff to admit its rich.

How can there be eny story about it, either you have it or you havent, one of the 2, ma sed, and pop sed, Well, you see, I was sitting at my desk jest about to dictate a letter to Harwell, Brown and Harwell the big hardware people, properly the biggest in the state for that matter, and I sed, after I give you this letter Im going to step out for a little taffyta chase, I sed, and she sed, Yes, Mr. Potts. That was she invariably says, Yes, Mr. Potts, weather she knows wats its all about or not, wich she genrally duzzent by the way, and well, anyway, I finished dictating the letter to Harwell, Brown and Harwell, I wish I had half their money by the way, and Miss Boggs called another letter to my attention, a very important one, by the way, so I started to answer that one too, and in the mist of it I sed to Miss Boggs, Miss Boggs, I sed—

In other words you forgot to buy the ribbin, is that it? ma sed.

Well yes, thats the story in a nutshell, pop sed.

Well its the biggest and silliest nutshell I ever listened to, Ill get the ribbin myself, give me the sample, ma sed.

Wich he did.

IN THE LONG AGO

14 Years Ago Today
From the Register Files

JULY 18, 1911
A hold attempt was made to steal E. B. Smith's automobile from his garage last night. The car was pushed out of his garage but was left in the driveway.

The annual report of the directors of the Santa Ana public library as well as the report of the librarian, Miss Jeanette McFadden, were filed with the city clerk. The receipts for library the past year were \$4324.

The city council decided to call for a \$5500 bond issue for a new sewer district in the western part of the city.

Suit for \$15,700 damages was filed against the Santa Fe railway by Charles R. Morrison of Los Angeles who was injured when his automobile was struck by a train February 9 at Irvine crossing.

The board of supervisors signed a contract for the Garden Grove lighting district.

Today's Birthdays

Dr. Samuel W. Stratton, president of Massachusetts Institute of Technology, born at Litchfield, Ill., 64 years ago today.

One Year Ago Today

Major Robert Imbrie, U. S. vice consul at Teheran, was beaten to death by religious fanatics.

On The Side Lines

A Record of Individual and Independent Opinion.

(Which may or may not be in harmony with the views of the Register.)

THE GOOD OLD WAY OF GOING TO FIRES—Discussing a small fire which took place in Santa Ana Tuesday evening, the Register incidentally mentioned the fact that Santa Ana has a city ordinance prohibiting any one driving through fire zones and stopping within a block of a fire.

This ordinance may, as the fire chief states, give the fire fighters a better chance to do good work, but this writer is again it, just the same. In the good old days of twenty to thirty years ago everybody, rich man, poor man, beggar man, th—no, there were no thieves then—turned out and got to the fire the best way he or she could. Everybody went, without choice of any special mode of conveyance. As happened when young Lochinvar made his play, "Forsters, Fenwicks and Musgroves they rode and they ran."

An alarm of fire was an infrequent occurrence, but such alarms were oftentimes responsible for cures approaching the miraculous.

People who had been bed-ridden for weeks, and even months, got up and chased off to the fire. They simply had to. True, they may have got in the way of the firemen, and probably did, but think of the fun they had!

THE LOCAL NEWSPAPER IS THE BEST FORUM—The Register, the other day, renewed its offer of space (written reasonable length) for a full and free discussion of Santa Ana's municipal needs, one of which, it is generally conceded, is the development of more water.

An offer such as this means something to the community. It means that anyone having any ideas, which he or she deems would benefit this community, if carried into effect, may present those ideas in the best and biggest forum to be found in any community—the columns of the local newspaper.

This is to be done, be it always remembered, at the expense of the newspaper.

EVERYTHING IN KEEPING—The writer has been more than a little interested in the discussion, recently held in the columns of The Register, as to what constitutes a good and sufficient certificate of title to real property.

In the discussion, Attorney Horace Head seems, to quote a vigorous though somewhat crude expression attributed to King George XIII of England, "to have the right now by the ear."

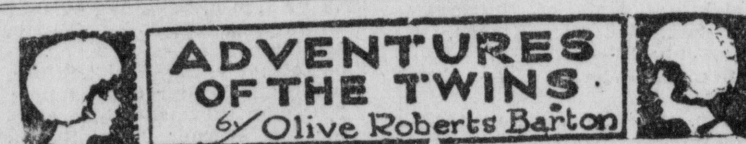

Every so often there comes along certain individuals who profess to be able to hand over a good and sufficient title to 160 acres of the Irvine ranch in return for the payment of a small amount of money. The man who invests in the hope of securing "this share" of the Irvine ranch in such manner might have use for a Torrens certificate of title after he gets the land.

PITY THE OIL WORKER AT \$10.00 PER DAY—By the adoption of shorter hours for laborers, the Standard Oil company of New Jersey is going to play heck with the wage scale of its men employed in drilling.

Drillers who formerly got \$12 for 12 hours work will now receive \$12.50 per hour for an eight hour day; tool handlers who have received \$10 a day for 12 hours' work will now receive the mere pittance of \$8 per day for eight hours' work.

To effect this cutting down of the pay roll, the new arrangement

RIGHT WHERE THEY START—It is not the fact, if it is a fact, that men had monkeys for ancestors that is so humiliating, as it is to know that so many men "haven't got out of the habit" as it were.

ADVENTURES OF THE TWINS

by Olive Roberts Barton

NO. 18—THE TRIAL OF THE TWINS

"My, my!" thought the Twins. "Here we came to the Land of Wonders to look for the Fairy Queen's lost honey-bees, and now we are to be tried for something we know nothing about."

"Are you ready?" asked the Black Sheep when everybody had gathered around and twelve jurors had been chosen.

"What are we to do?" asked the jury.

"Try to remember your names, that's all," said the Black Sheep, "and try to stay awake. Snoring always makes me lose my temper. Besides it keeps me awake myself and I want to take a nap. Call the first witness, please."

The first witness was the Candle Stick Maker.

"State what you know of the case," said the Black Sheep rapping loudly for order.

"The only case I know about is a case of tallow for making candles," said the Candle Stick Maker promptly.

The Black Sheep shivered. One word he could not bear mentioned was "tallow."

"The witness must be a friend of the prisoners," he cried. "He is excused. Call the next person, please."

The next person was the Drum Major.

"State what you know of the case," said the Black Sheep sharply.

"The only case I know anything about is a case of sheep skins to break them," said the Drum Major. The Black Sheep shivered harder than ever. To speak of sheep skins on anything else but himself was worse than talking of tallow.

"Come along, Nancy," said Nick. "This is no way to treat company. We'd better be going."
(To Be Continued)
(Copyright, 1925, NEA Service, Inc.)
